SITUATION IN ANAHEIM TENSE

More Land Is Leased For Oil Drilling

2 SECTIONS NEAR COSTA MESA UNDER LEASE NOW

Penn Company Is to Start Drilling at Early Date, Agreement States

SHELL AND STANDARD REPORTED ACTIVE

Rumors About Holly Sugar Co. Signing Up For Land Near S. A. Are Denied

LEASING by the Irvine company of two sections of land near the Pauline school house to the Penn Produce company, with stipulation that oil drilling be started within a very short time, and the activity of the Shell Oil company and the Standard Oil company in the Greenville and Pauline districts today had increased interest in the prospective development of oil immediately south of Santa Ana.

C. A. Johnson, of Huntington Beach, manager of the Orange county interests of the Holly Sugar corporation, today denied the truth of rumors in circulation to the effect that his company had leased to an oil company its properties just south of the city limits of Santa Ana. Rumor also had it that the company had signed with the Standard Oil company and that the first drilling in the prospective field would be on property of the sugar company.

According to an unconfirmed report the Shell Oil company has entered the Pauline district by securing leases on 90 acres belonging to W. J. Jamison and his son-in-law, the former having 80 acres and the latter 10. The owners are said to have received \$10,000 cash rental in advance for a 3-year lease.

Standard Extends Leases

It also was disclosed here today by A. V. Napier, local realtor, that the Standard Oil company had extended its leasing operations to Pauline, and that it had secured a lease on 212 acres of the 412 acre tract known as the Stephens property and now in the possession of W. D. Whitfield, of Los Angeles. The tract lies on the north side of this Newport Beach boulevard and almost directly opposite the new country club.

It is understood the Standard paid cash in advance for a 3-year lease at the rate of \$2.50 an acre per month.

By leasing the Whitfield tract, the Standard has enlarged its operations to territory between the Southern Pacific line to Newport Beach north to Edinger street and between the Irvine ranch on the east and Greenville road on the west.

Increases Greenville Acreage

In the past few days, the Standard has increased by many acres its leasing holdings in the Greenville district.

Among those who have recently signed are D. A. Bear, 53 acres; Alfred Manderscheid, 90; Sam Webber, 20; Selvidge Brothers, 50; Antonio and Glenn Borchard, 265; F. D. Plan, 112; S. H. Manderscheid, 41, and George Manderscheid, 40.

Other leases previously reported included the acreages of R. L. Tedford, W. W. and A. T. Armstrong and Stephen Grisct.

STORM KING IS GRIPPING EAST AGAIN

Cold Wave General Over United States With Exception of Florida

SNOW fell last night and today, or was promised for tonight over the entire United States east of the Rockies with the exception of Florida.

A cold wave ranged from sub-freezing temperatures in the southwest, accompanied by sleet and snow storms, to sub-zero temperatures in the north. Parts of Ohio and western Pennsylvania were buried beneath heavy snow drifts which disrupted traffic and communication facilities.

The south was due for a cold wave and snowfall tonight, according to the weather bureau.

Fairly mild temperatures in the east, especially in New York and New England, were succeeded by increasing cold and snow.

African Isle Disappears In Tidal Wave

LISBON, Jan. 27.—Reports from Africa reveal that the little island of Port Alexandre has disappeared as if by magic under the sea. Scores of dead bodies and floating debris are all that remain of the once populous and prosperous port. The cause of the disaster is unknown but it is presumed a submarine earthquake caused a tidal wave.

Details are meager and confusing. A few gibbering madmen were picked up by vessels standing by, near the spot where the port once was, and from these survivors it was gathered that the sea suddenly heaved up mountain high and dropped in a swirling maelstrom, engulfing the island.

SECRECY IN SENATE IS UNDER FIRE

Objection Made to Use of Confidential Reports By Newspapers

WASHINGTON, Jan. 27.—A move to abolish secret sessions of the senate was started today as a result of the furor over publication of what occurred during the "star chamber" sessions on the nomination of Attorney General Stone to be supreme court justice. Half a dozen champions of free speech indicated they would join in the movement.

They have been aroused by threats of a few senators to punish newspapermen for publication of what goes on in executive sessions. They are wary at present, however, because they themselves could be expelled from their seats if caught telling a newspaperman what occurs.

Senator Dill, Washington, Democrat, nevertheless came forward with a proposal to change the rules of the senate and abolish the secret sessions.

Action of certain leaders yesterday in making the threats was denounced as an effort to "throttle the freedom of speech," by half the senators in the chamber.

It has long been the custom for senators to tell their friends among the newspapermen what occurred in the executive sessions when the public interest was not jeopardized. Although frightened somewhat yesterday by threats of expulsion, all the facts of what transpired in the executive session on the Stone meeting were obtainable within a few minutes after the doors had been opened.

CITY CLERK TESTIFIES IN HEARING ON MANDAMUS CASE

City Clerk W. R. Wright, of Huntington Beach, having spent an entire day on the witness stand, explaining why he had disqualified 135 signatures on a recall petition directed against four Huntington Beach councilmen, thus leading to his refusal to certify the petition as sufficient, the hearing on W. T. Newland's petition for a writ of mandamus against the clerk was today marking time, its resumption being scheduled for February 19.

Seek Pianist Following Mystery Flight

NEW YORK, Jan. 27.—Vanishing into the night while an audience of 2000 awaited her appearance at Carnegie Hall, Ethel Leginska, pianist, was missing today, although sought for 12 hours by hundreds of police throughout the city.

Leginska disappeared from the stage of a modest house on the lower West Side during a space of ten minutes in which her secretary sought a taxi.

When the pianist failed to appear at the hall and her secretary was unable to locate her, a general alarm was sent out by the police.

CITY TRUSTEES REFUSE BULGIN HALL IN H. B.

HUNTINGTON BEACH, Jan. 27.—The Rev. E. J. Bulgín, who is conducting a series of meetings in Anaheim, and who is reputed to be a Ku Klux Klan agitator, was refused use of the municipal auditorium in Huntington Beach for a lecture tonight, it became known today, following rejection by the city trustees of an application for use of the auditorium, filed in behalf of Bulgín, by the Rev. Luther A. Arthur, pastor of the First Baptist church, here.

Notwithstanding refusal of the trustees to permit Bulgín to appear in the auditorium, he will speak in Huntington Beach tonight, it is declared. The Baptist pastor announces the Anaheim lecturer will talk from the pulpit of the Baptist church.

Arthur was informed several days prior to the filing of his written application for use of the municipal auditorium that Bulgín would be denied use of the city building.

The trustees declared, in rejecting the application, that they believed Bulgín was coming here merely to endeavor to stir up trouble in the community, and they did not wish to in any way lend aid to Bulgín.

BAW INSURGENTS AT G. O. P. CAUCUS

WASHINGTON, Jan. 27.—A call for a party caucus to be held here February 27 was sent out today by the Republican committee on committees of the house.

Organization plans, including the election of a speaker and house officials will be drawn at the meeting.

House insurgents who bolted the party in the last campaign are to be banned from the party meeting and stripped of their committee assignments under present plans.

Shot Wife, Chased Stepson, Charge

LOS ANGELES, Jan. 27.—Noble Roberson was held in jail today charged with shooting his wife, Ella Roberson, and attempting to assault his stepson, Dorsey Justice. The woman was not seriously injured.

Justice hid behind a door and knocked his stepfather down when, after shooting Mrs. Roberson he started after the youth, according to the story told of officers.

VILLA PARK RANCHERS TESTIFY IN SUIT AGAINST PACIFIC CORPORATION

Ranchers, mostly from the Villa Park section, who invested approximately \$35,000 in production of the Pacific corporation well No. 5 on the Thompson lease, at Signal Hill, today continued their testimony before Superior Judge R. Y. Williams, in whose court they are seeking recovery of their money, said to have been placed in a Long Beach bank.

John Mangold and G. G. Beckman, two of the group of investors, each filed separate suits which were consolidated for the trial. Each action involves a number of individual claims. The Pacific corporation and its officers, including President R. C. Steele, and Assistant Secretary Benjamin Brubaker, of Orange; the Bank of Italy, pres-

RUMORS OF TROUBLE IN KLAN FIGHT ARE HEARD

Three Men and Women Are Nabbed After Alleged "Frame-up"

PASTOR REFUSES TO REVEAL WARNINGS

Newspaper Says Rev. Bulgín Involved In Suit Over Land In Riverside

WITH THE breach between klansmen and anti-klansmen becoming wider, personal hatred more intense and reports of violence springing up hourly, Anaheim today entered the "hot stretch" of the race for supremacy between the present city council and those who would recall four members of that body and in their place elect men opposed to the secret order.

The race will end February 1 when the recall election is held. The situation could be summed up like this today:

Three men and one woman are reported to be under arrest charged with conspiring to "get something" to blacken the character of the four councilmen whose recall is sought by the U. S. A. club.

Leaders of the latter organization declare that the three men and one woman were imported by the Ku Klux Klan in a "double cross" to discredit the U. S. A. club.

Efforts on the part of citizens to learn where the four are being kept in custody failed when Bert Moody, Anaheim city marshal and admitted klansman, declared: "We do not keep any records of persons arrested here until after their cases are disposed of. If there are, any records you cannot see them."

Leaders of the U. S. A. club today were considering legal action against Moody to force him to reveal where the prisoners are being held and upon what charges they are being held.

The maintaining of guards at the home and church of Rev. James A. Geissinger, pastor of the White Temple Methodist church of Anaheim and leader of the group opposed to the Klan.

Revelations by an Anaheim paper that Evangelist Bulgín, said to have been brought to Anaheim by the Ku Klux Klan, had been made defendant years ago in a suit to recover land in Riverside county in which judgment was rendered against him.

A denial by Bulgín that his record is "unsavory."

A mass meeting in Bulgín's tent last night at which time the four councilmen under fire defended their administration and at which time Mayor E. H. Metcalf lauded the Ku Klux Klan.

A report that the four "investigators" for the U. S. A. club had been brought to Anaheim to murder Rev. Leon Myers.

An admission by Myers that a policeman had warned him that perhaps he had better "be careful."

A refusal by Rev. J. A. Geissinger to give out for publication any of the mysterious warning letters which he said he had received on an average of five a day for the last two months.

A reported request for deputy sheriffs to guard the polls election day.

A report that martial law would be asked for Anaheim within five days.

The following is a letter received today from Rev. Geissinger:

"Editor,

"Santa Ana Register,

"Dear Sir: After my telephone conversation with you yesterday I decided that it was not best to give any of these anonymous Klan letters for publication.

"I have already destroyed many of these letters as they came. In substance, both the signed and unsigned letters express regret that a man who has been so outspoken on the dry side in former years should now be lined up with the bootleggers and liquor interests in the present fight.

"My reply to this position would be that the Klan councilmen are not bone dry, that the Klan is not dry, and that the men the U. S. A. club has nominated are absolutely bone dry men, and that 99 per cent of the most representative business men of Anaheim are back of these men to give Anaheim an efficient business-like administration.

"Let me assure all my dry friends that as long as I have breath I will stand out to speak against the liquor interests and to help drive every form of liquor domination from the control of American affairs. I also stand unalterably against the Ku Klux Klan because of its denial of the liberties guaranteed by the constitution of the United States.

"Yours very truly,

"JAMES ALLEN GEISSINGER."

PROMISED RAIN FAILS TO FALL

LOS ANGELES, Jan. 27.—Additional rainfall promised for some sections of Southern California last night and today failed to materialize and only fair weather is ahead, according to Col. H. B. Hersey, local observer.

Corona and San Diego are the only two points where any precipitation has descended during the past 24 hours, the first city receiving .02 of an inch and the latter .01.

Moderate temperatures will be experienced in this section tonight and Wednesday, according to the prediction.

Lindsey Demands Speedy Hearing

DENVER, Colo., Jan. 27.—Juvenile Judge Ben B. Lindsey today demanded a speedy hearing on his motion to quash the election contest suit filed against him by Royal R. Graham, his Klan opponent in the November election.

Lindsey's supporters characterized Graham's suit as a "fake." They charged the contest was filed at the instigation of the Ku Klux Klan merely as another attempt to oust Lindsey from the juvenile judgeship of Denver.

A Home To Fit Your Purse

The home you want, the home your family has been waiting for may be had at a price that will remain within the bounds of your bank account.

That home is listed in Register Classified Ads tonight. It is located in the section of town you most prefer—and too, it is just the ideal size for the comfort and convenience of your family.

Don't say that you cannot afford a home, because now it is possible for almost anyone to own one.

Your Future Home

is only one of the many interesting offers you will find in the classified section. There is property to exchange. Productive farms. Open and closed automobiles offered by reliable dealers on very easy terms. A large list of houses, rooms and apartments to rent. Money to loan. Nursery stock, plumbing supplies, household goods, musical instruments and hundreds of miscellaneous articles. Among the specialized services there are special prices on watch repairing, electrical work, real service and scores of others that are worth your time to investigate.

HUNT HERE FOR FATHER OF YOUNG

Relatives of S. Glenn Young, known as "Two Gun Young" in the Tennessee mountains, and leader of the Klan forces in Herrin, Ill., who "shot it out" with Ora Thomas, deputy sheriff at Herrin, today sought the father of the slain man in Santa Ana, according to a report received here today from Radlands where relatives of Young live.

The father is said to be touring in the county and does not know of his son's death, it was said.

Police officers of Santa Ana and members of the sheriff's department here stated today they had not been asked to assist in the search for the father.

Opera Singer Is Thrown to Floor By Husky Tenor

NEW YORK, Jan. 27.—Marit Jeritza, Metropolitan Opera soprano, was confined to her hotel today by injuries received last night when the tenor, Benigno Gigli, who was supposed to throw her to the floor, miscalculated his strength and sent the prima donna head over heels into the footlights.

The large audience mistook the accident for a bit of realism.

'EMINENT' COUNSEL TO DEFEND SLAYER

SAN FRANCISCO, Jan. 27.—Dorothy Ellingman, 16-year-old girl, who was killed by her mother, probably will be turned over to the criminal courts for trial when her case is called in juvenile court Thursday, according to indications today. Alexander Mooslin, chosen as her first defense attorney, announced that he had secured "eminent counsel" to help him defend the girl.

Mooslin would not reveal the names of the lawyers he has selected. He denied, however, that Patrick McCarren, who represented Mary Pickford in her divorce case several years ago, was one of them.

Dorothy meanwhile is taking life in jail as she finds it, reading stacks of letters from all over the country, letters that range from "sermon stuff" as she calls it, to confessions from other girls, and sound advice from those "who have been through the mill."

"30" BULLETINS

LITTLE ROCK, Ark., Jan. 27.—Mrs. Winona Green today was sentenced to life imprisonment for the murder of J. R. Green, her father-in-law, after Judge Wade had overruled a motion for a new trial filed in her behalf. The defense was granted sixty days in which to file its transcript of appeal to the state supreme court.

WIFE SEEKS TO RELEASE HUSBAND

An alleged refusal by Justice C. W. Warner, of Huntington Beach, to accept a property bond offered for the release of Claude Gossard, 24, of Huntington Beach, who is held in jail on a grand larceny charge, today forecast an appeal to county authorities, it was said.

Gossard, who was arrested in a raid upon an alleged ring of automobile thieves, was placed under \$1000 cash bail, or \$2000 property bond. His wife was said to have appeared in court today to file a property bond, which the court refused to accept.

Mrs. Gossard, according to messages from Huntington Beach, left immediately for Santa Ana, announcing her intention of appealing to the district attorney's office.

SMITH DISCOVERETH NAME CHANGE CAUSETH HIM TO LOSE SHEKELS

Now it came to pass that there was a certain man named Smith. And he did move to a strange city and didst open a business. And being a man of great industry he prospereth mightily. And he did becometh the envy of all the other business men in the city. And this was pleasing to Smith, who was a vain man. And as the days passed and the business increased, he didst become vainer still.

Customers were many and the cash register didst ring mightily. Which was music to the ears of the certain man, who was sore disappointed if he did not maketh many shekels each hour of the day. Now it came to pass that this certain man didst decide to change his name, even to Pittsburg Plus did he changeth it. And he was mighty well proud of his new name and didst swell with pride whenever he didst think about it.

Name Causeth Trouble

Now it becometh apparent that Smith had named himself not wisely but too well. For customers becometh few and far between and the business didst begin going down the well known hill.

And all this did annoy Pittsburg Plus, who did seek to find out the reason.

And he did learn that it was because of the strange name that business didst fall off and forth with he changeth his name back to Smith again.

And the multitudes did once more flock into the store, they liking to trade with a man whose name had becometh well known amongst them.

And Smith didst once more hear the pleasant jingle of the cash register.

Also After Dinner Speakers Pullman cars carry the sleepy and motion pictures make us sleepy!

What's a Title, Anyway? The gentlemen who name mo-

tion pictures and Pullman cars have a lot in common. Neither has to see the product before giving it a title.

By their Names You Shall Know Them

Flappers with movie aspirations are warned that foreign names like Smith, Jones and Brown are strictly taboo on the screen. Such cognomens as Lovely, Pretty, Beautiful, Dainty or Winsome are much to be preferred.

And Just As Expensive Some girls ought to be named after tires. They're so changeable you know.

Drafts Are a Nuisance With so many drafts in Pullman cars, it would seem entirely proper to call one of them "Banks."

Practical Use for Talents The company ought to call some of these mass meeting gentlemen into service. Their ability at calling names should make them past masters at the gentle art of christening cars!

English As She Is Spoke Anyway, the mass meeting names are easily understood. Which is more than can be said for many of the Pullman names.

Or Making X-Word Puzzles It would appear that some of the names of Pullman vehicles are now trying their hand at radio.

How VERY True Many a sweet name has a sour owner.

"Names"

Just about everyone has a name, it being considered improper to appear on the public highways without one. Outside of working cross-word puzzles, the great indoor sport is giving names to babies, although no one ever thinks to consult the infant on the subject. Names don't grow on trees, although this impression might be gained after hearing "Blossom," "Cherry," and "Peach." Not everyone is satisfied with the name they possess. From the way women change theirs, it would appear that none of them are pleased with their cognomens. The discouraging part is that they usually get a worse one than they had before. Try, try, try again seems to be the motto of the ladies who draw unsatisfactory names in the marriage lottery. Most people are rather touchy about their names. They part them in the middle, reverse them, add a letter here, take one away there, take them into court, dress them up with all kinds of fancy flourishes and first thing they know, have a piece of art that would do credit to a sculptor. Some names are like flowers, beautiful, fragile. Others are like the oak, sturdy, firm. A clean name is an asset. If you have one, keep it. Some one has said that a good name is more to be desired than riches. Surely a respected name is better, than suspected fame.

Today's Interesting Fact Smith and Jones are very common names in the United States.

Handicapped For Life Heaven help the poor infant whose father names Pullman cars!

Umbrella Debts Included Memory courses help a lot of folks to remember names but fail to help them remember their debts.

No Relation to Sky Cloud If there is anything in a name, aviation lost a promising flyer in the person of Pierce Cloud, haberdasher of 107 East Fourth street.

The Well-Dressed Man
By BEAUNASH
Correct Clothes To Meet The Obligation Of Every Occasion

FOR SNOW-AND-BLOW
Twine a wreath of his native heather for that Scotsman, father of the Tam-o-Shanter, for in racy, rugged picturesqueness it has never been outdone as a smooth, snug, stick-tight hat for field, country and knockabout. Of the multiplicity of caps, toques, hoods and helmets, be they American, Canadian, Swiss, or Norwegian in design, no hat as much as the Tam-o-Shanter looks appropriate and sporty for winter games and pastimes. This typically Scotch style was the inspiration of Bobbie Burns' poem of which the present-day hats of this sort, knitted or woven, are patterned after the immortal Tam-o-Shanter.

Except in the larger cities, worn here, because, perhaps, it gives just the right daredevil and bob-sledding, being worn with knickers and long wool stockings. More in accord with the American notion of a knitted pull-down winter toque or hood is the hat of fleecy Angora wool illustrated here. This comes in the brightest of stripes and is adjustable in that it may be drawn over neck and ears when the wind whistles.
Soft cashmere, camel's hair, Australian, Shetland and Llama wool are also used for hats of this style. Nor should one omit to list such kindred cold-weather essentials as woolen overcoats, woolen waistcoats, wristlets, mittens, slippers, caps with ear-taps, moccasins, waders, lumberjack shirts, winding woolen scarfs, fleece-lined boots, fur-lined gloves—sounds like a sporting goods dealer's catalogue or an auctioneer's monologue.
Wristlets! Egad, doesn't that whisk you back to the days when you believed in Santa Claus; the Sleeping Beauty and the Prince, Launcelot and Guinevere; Sandford and Merton and all that holed host of stories improbable who tired the rosy fantasies of childhood? Instead of old-fashioned wristlets, we wear combined wristlets and mittens or fingerless mitts, the wrists extending far up the arm, so that they serve for "pulse-warmers", as our grandfathers used to call them. Quaint belongings of dress, these, silvered with the dust of years and reminiscent of the birch, bonfire and birdcall of boyhood.

The Cheerful Cherub

When I think a happy thought
It colors everything I see.
It sends out rays to touch the world
And everything shines back at me.

Fraternal Calendar

S. A. Pyramid of Sciots—Will hold dinner and dance for Sciots in El Camino hall, January 28. All Masons and their ladies are invited to attend the dance.
Calumet camp and auxiliary, U. S. W. V.—Will hold joint social in the G. A. R. hall January 29. All members of the two organizations are invited to be present.

Santa Ana lodge, B. P. O. E.—Seven candidates will be initiated by the lodge tonight, following a program of entertainment a collation will be served.

Torosa Rebekahs—Will hold installation of officers in the I. O. O. F. hall Wednesday night. A surprise dinner will be held at 6 o'clock. Each member is asked to bring one dish and enough sandwiches for themselves and visitors.

News Briefs

Members of the American Legion dance committee have decided to discontinue their regular Friday evening dances according to an announcement made today, and beginning this week and continuing throughout the remainder of the season no dance will be held at the Legion hall on Friday evenings. The regular Wednesday and Saturday evening dances will continue, it was stated.

Fire, thought to have originated from a smoldering cigarette butt, caused damage estimated at \$350 to a house at 208 South Artesia street last night at 10 o'clock. A large hole was burned in the floor and approximately \$150 damage was done to furniture. Although the house is not occupied, a report from central fire station was to the effect that a party was being held at the house last night. The house is the property of Marcel Dedrick.

Fast and expert work on the part of the Santa Ana fire department at a blaze at Third and Garfield streets at 9 o'clock Saturday night, prevented what is thought would have been a disastrous fire. Lumber, stacked up at the side of the Santa Ana bakery, and belonging to a man named Kincheloe, caught fire, threatening the bakery, a one story frame structure. There was no damage.

Mrs. Grace Jones Ashton, a prominent club woman of San Diego, is among the arrivals at the Cooper hotel.

Mrs. Mary E. Tucker and Miss Dorothy Tucker, of Berkeley, Calif., are registered at Hotel Cooper.

P. Maginnis, rancher and business man at Kimball, Neb., and Mrs. Maginnis, have registered at the Rossmore hotel. Mr. Maginnis is planning to make Santa Ana his future home.

M. Manasse, traveling salesman for the Coshocton Advertising and Specialty company, Coshocton, Ohio, who claims the distinction to the oldest traveling salesman in the United States, is registered at the Rossmore hotel.

In South Africa the warmest month is February and the coldest is July.

Society

Business Women

Hear a Fine Talk
By Pioneer Woman

One of the most pleasant and instructive of the luncheon meetings of the Business and Professional Women's club was held yesterday at St. Ann's Inn.

The mothers or adopted mothers of the members of the club were the honor guests of the occasion, which added much to the pleasure of the gathering. The mothers were introduced by the members whose guests they were.

Miss Martha Whitson, vice president, presided efficiently in the absence of the president, Miss Mabel McFadden.

The feature of the program was the very interesting talk on "Orange County—Its History and Landmarks," by Mrs. Victor Montgomery, who, being a pioneer herself, is able to give very authentic information of the life and growth of this country.

Mrs. Montgomery opened her talk, which was delightfully informal, by quoting that well-known passage, "Breathes there a man with soul so dead, who never to himself has said, 'This is my own, my native land'." She said, "All our citizenship radiates from the home, and one should be identified with his city, his county, his state in order to be a good citizen of his country."

Mrs. Montgomery began by telling of the remains of prehistoric animals found in the pits of La Brea, traveling along to the legends of the White Indians, who were said to have had blue eyes, light hair and white skins, and who, tradition says, were before the coming of the Franciscan padres to civilize and Christianize the Indians, who then inhabited California.

The speaker paid eloquent tribute to Father Junipero Serra, the intrepid missionary, who left honors in his native Spain, to carry on the arduous work in a strange land, and built California's wonderful chain of missions.

Interesting historical facts of California having been under five governments and four flags were given and some of the life of the pioneer Spanish families was touched upon, including that of the Yorbas and Forsters of San Juan Capistrano. Interesting incidents of the Molino Viejo at San Gabriel, where families gathered for a week of festa while their grain was being ground, were narrated. The old mill is now a hunting lodge on the property of Henry Huntington.

The Battle of Wilmington and what it led to was described and the speaker asked her hearers to think of the fact that they are crossing an old line of battleworks as they pass over the hill before arriving at Seal Beach. Mrs. Montgomery also told of the old Wilson college at Wilmington and named some of the old-timers, such as the Tedford and Fruit boys, who were educated there.

Anaheim was founded in 1857 and its fifty founders of German descent made much of Orange county history. Madame Modjeska was there with a Polish colony and she was described as going from house to house trying to sell eggs. The place was named for the first child born there, Miss Anna Fischer.

Santa Ana and Orange (Richland) were started in 1863 and William Spurgeon and his co-workers moved a road to Anaheim through the dense mustard fields.

Columbus Tustin settled and named the town of Tustin, and the history of the silver and coal mines in Santiago and Silverton was told. The thrilling stories of the bandits in Santiago canyon, including the notorious Flores, made interesting material.

Among other interesting historical facts, noted by Mrs. Montgomery, were the establishment of the first public school and the first Protestant church organization in Anaheim. Westminster was formerly quite a center for notable speakers and singers and bade fair to become prominent, until the land was ruined by the sinking of too many artesian wells.

Anaheim Landing was Orange county's first port of call, followed later by one at Old Newport, at which no business was permitted on Sunday.

Mrs. Montgomery spoke feelingly of the boom of 1886, which although disastrous in some ways, sent Santa Ana on its way to become the fine city of today, and for which she prophesied a more wonderful future.

All Fat People

Should Know This

Fat people owe a debt of gratitude to the discoverer of the new famous Marmola Prescription. And they ought to be still more grateful because this effective remedy is now prepared in tablet form. Marmola Prescription Tablets can be obtained at all drug stores the world over at the reasonable price of one dollar for a box. Or you can secure them direct by sending the price to the Marmola Co., General Motors Bldg., Detroit, Mich. This now leaves no excuse for dieting or violent exercise for the reduction of the overfat body to normal.

Exhibit Gland

Treatment In

London

A REMARKABLE treatment was exhibited at the Annual Chemists Exhibition in London, where it was reported, that "the compound rejuvenated old men in a startling manner and that underdeveloped children thrive on it like withering plants put out in the sun."

Scientists of international prominence disclose that the vital glands of young animals often have a remarkable effect in renewing vitality, toning up the entire system, and building nerve forces.

Glandogen, the new scientific gland tonic, prepared in tablet form provides a simple method of taking glandular treatment. Glandogen, for men and women, S. Kelley and Park Drug stores will supply you. Mail orders accepted.—Adv.

HISTORICAL SOCIETY HEARS
STORY OF PIONEER EFFORT
TO RUN DOWN FOUR SLAYERS

The story of an effort to run down four murderers who in 1863 killed two men in Carbon canyon was told at the meeting of the Orange County Historical society at the Ebell clubhouse last evening. The story was related in a paper read by Mrs. J. E. Pleasants and dictated by her husband, Santiago canyon pioneer.

Another paper of equal interest, "The Pleasants was with those who took the trail of the wounded man and followed him northward to Rincon, on the Santa Ana river. There the trail was lost. The wounded man died of his wounds in Los Angeles, where he was hidden by friends. The others escaped.

In his paper, McPherson went into detail concerning the organization of the Butterfield stage line in 1858. He followed its route from San Francisco to St. Louis, going into detail concerning the route from Los Angeles through Chino, Temescal, Warner's Hot Springs, San Felipe, and on across the desert.

Officers of the society for the coming year were elected last night as follows: President, Dr. C. D. Ball; vice-president, William McPherson; secretary, S. M. Davis; directors, Dr. Ball, S. M. Davis, J. E. Pleasants, Mrs. W. B. Tedford, T. E. Stephenson, Robert Northcross, W. T. Brown.

The earliest record of an eclipse was that of the sun, observed by the Chinese in B. C. 2158.

Jefferson P.-T. A.

Fathers' night for the Jefferson school Parent-Teacher Association was observed last Friday, January 23. It being fathers' night, Mac Robbins presided instead of Mrs. Fairbanks, and he proved a very witty, as well as efficient, leader.

The address of the evening was given by R. K. Miller, county probation officer. Mr. Miller talked upon "The Responsibilities of Parents."

After the address the following program was enjoyed:

Violin solo, Peggy Warburton; reading, Billy Gibbs; piano solo, Jacob Oliver; and community singing led by Mac Robbins.

Since the Jefferson P.-T. A. has no February meeting, Mrs. Fairbanks conceived the happy plan of celebrating Founders' Day on Fathers' night, so after the program a large birthday cake was brought in, holding twenty-eight candles. Each father present had the privilege of lighting a candle and reciting a witty little verse.

A collection was taken of \$10.70 for the needy. The mothers made the donations since the fathers were guests.

The cake with coffee was then served to all present.

Find Death Was

Due to Accident

A coroner's jury today in an inquest over the body of Bert G. Mixon, Torrance glass man, who was killed Sunday near Westminster, when the car in which he was

riding, skidded on the wet pavement and turned over, returned a verdict of accidental death. The inquest was held at the Winbigler Mission funeral home.

J. B. Bronson, president of the same glass factory where Mixon was employed, was so seriously hurt in the accident that he was unable to return here today to testify before the coroner's jury. He

is confined to his bed at Torrance, where he was taken a short time after the death car turned over. No funeral arrangements have been made for Mixon, it was stated today, undertakers awaiting word from relatives in New York. Mixon had no relatives in California.

Bekinos are very fond of tea and will travel hundreds of miles to get it.

Children Cry for

MOTHER: Fletcher's Castoria is especially prepared to relieve infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

OUR— NEIGHBORS

RIVERSIDE.—Cooperation of citrus fruit shippers and packing house managers has been pledged to Horticultural Commissioner A. E. Bottel and his deputies in the carrying out of provisions of the 1915 act, fruit shipments cannot be made if 15 per cent of the fruit on a transverse section through the center of the fruit shows marked drying in 20 per cent of the exposed pulp. Enforcement of this act comes under the state department of agriculture, and in carrying out its provisions each horticultural commissioner and inspector is deemed a state officer rather than a county official, as under the county ordinance.

DEL MAR.—A circulating chamber of commerce, designed to unite and further the interests of half a dozen towns and communities which have sprung into prominence recently as a result of the San Diego valley irrigation project, was organized at an enthusiastic meeting in Solano Beach by delegations from Cardiff, Solano Beach, Rancho Santa Fe, Olivenheim and Del Mar.

SAN BERNARDINO.—Governor Friend W. Richardson has accepted the invitation of the directors of the fifteenth National Orange show to open the annual exposition on the night of February 19. In his acceptance the governor said that he will gladly do his share in making the annual citrus classic an unqualified success. Tentative plans call for a reception for the governor, at which scores of residents of San Bernardino county will attend. After the reception the orange show will be officially opened with the governor giving the only address of the evening, excepting the introductory speech.

VENICE.—An influx of peddlers exhibiting wares of every description to busy housewives has been brought to the attention of Mayor C. Gordon Parkhurst, who has instructed Chief of Police McCausland to rigorously enforce the city ordinances prohibiting the selling of merchandise at residences. It is asserted that peddlers by the score are operating here. At a recent meeting of the city trustees a motion was passed unanimously that all licenses would have to be approved by the council before that this had been done in most instances and that it was the opinion of the council that many of the peddlers were operating without licenses.

PASADENA.—A large, representative, attendance of prominent men and women of Southern California marked the laying of the cornerstone at the new home for the retired Presbyterian ministers, at Monte Vista grove on San Pascual street. When completed, the new homes will accommodate 150 residents. Each bungalow will be fitted with all modern conveniences and arranged so that the occupants may cook their own meals if they desire. Tile and hollow block cement is to be used in construction.

Approximately \$500,000 will be spent ultimately in the cost of the building, the purchase of the property and the future upkeep. At a recent investigation, it was pointed out that there are more aged and nearly penniless ministers in Southern California than in any other section of the United States.

LONG BEACH.—Authorization by the city council of expenditure of \$15,000 from the city's oil fund for development of a golf course in Recreation park promises to stir up a hornet's nest. Residents of territories annexed to Long Beach more than a year ago and which, it is claimed, have been neglected by the city, declare that better fire and police protection should be afforded these districts before the city undertakes to spend money on luxuries for a comparatively small class. Several square miles of territory including Virginia City, Davidson City, Los Cerritos, Chateau Thierry, Cherry Heights and a portion of Hynes, occupied by more than 20,000 people, are still without the city improvements promised them by city officials in pre-annexation election speeches, it is charged.

RIVERSIDE.—Resolutions favoring proposed construction of a toll bridge across the Colorado river at the Ehrenberg ferry at Blythe on the Sunkist trail by an engineering firm headed by J. L. Harrington, to be forwarded to Senator Shortridge and Congressman Phil D. Swing were passed by the board of directors of the Riverside Chamber of Commerce in semi-monthly session. The Colorado river toll bridge project was explained by T. Mancke, secretary of the Blythe Chamber of Commerce, who went into details as to opposition which is being shown by San Diego especially and urged that San Bernardino and Riverside counties should give their enthusiastic support to the proposed undertaking as a means of developing traffic in this direction over the Sunkist trail.

SEEKS FURTHER LAURELS.—Charley Brookins, former University of Iowa track star and holder of the world's 220-yard low hurdle record, is out to better his mark this season. Brookins hopes to take the sticks in 23 seconds flat one-fifth of a second faster than the existing mark.

RACEY GOOD BASKETBALLER.—Minnesota boasts a first class basketball player in Racey, a forward. Most of the Gopher plays are built around him. He's fast, a nifty shot and an accurate passer.

CUT THIS OUT—ITS WORTH MONEY

Send this ad and ten cents to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a sample bottle of FOLEY'S HONEY AND TAR COMPOUND for coughs, colds and hoarseness, also sample packages of FOLEY'S PILLS, a diuretic stimulant for the kidneys, and FOLEY'S CATHARTIC TABLETS for constipation and biliousness. These dependable remedies are free from opiates and have helped millions of people. Try them!—Sold everywhere.—Adv.

CO. SUES ORANGE MAN FOR \$12,000

Leo Allison, of Orange, was today sued for \$12,000 damages by the Norwich Union Indemnity company, which is said to have paid a liability insurance claim for injuries sustained by Charles

Schuppe Bessie, Orange newsboy. Bessie, employed by the Orange Daily News, was riding a bicycle which was struck by Allison's machine, it was alleged. The newspaper carried an insurance policy on the employee, and the company is said to have incurred obligation to pay \$4000 under the policy.

An additional \$8000 damages today were asked for the injuries sustained by Bessie. Allison, it is said, was once a newsboy employed by the same newspaper.

FORMER PREMIER GIVEN EARLDOM

LONDON, Jan. 27.—King George today bestowed an earldom on former Premier Herbert H. Asquith. The veteran Liberal statesman, who for many years declined repeated offers of a title, becomes

the Earl of Oxford and leader of his party in the House of Lords. Mrs. Asquith, whose memoirs recently stirred English society, becomes the Countess of Oxford. As Asquith's only son was killed in the war, his title will pass to a grandson, who for the present will be known by the courtesy title of Viscount Asquith.

UNIQUE HOCKEY TEAM.—Kitcheners, Ont., boasts hockey outfit made up of seven brothers. Each is a star. The father is

"Helped Me Gain Strength"

Mrs. L. P. Lambert, for several years a popular school-teacher at Morse, Louisiana, tells the following story of how she used to be afflicted, and how she recovered better health:

"I would ache all over. My feet, my toes, my arms, hands, head—my whole body seemed to be in one awful pain. I would grow so nervous that I could not hold a cup in my hand. My husband would have to hold my coffee for me to drink. Last fall I was in such a bad condition that I had to spend about three days in bed every month. It seemed to me that I was on my last go-round."

Then one day, said Mrs. Lambert, she happened to read about Cardui and the experiences of some women who had been helped by it.

"I felt that Cardui might help me if I tried it," she continued, "for I had been suffering with similar troubles to those mentioned there. I had heard of Cardui all my life and I knew many women who said they had been helped by it. The very next day I began to take it."

"Very soon after I began to notice my improvement. I kept on till I felt like a different woman. I gained in weight from 98 pounds to 115 and felt better than I had in years. I took six bottles right along and found it a splendid tonic. My suffering was partly due to a run-down condition and the Cardui stimulated my appetite and helped me to gain the strength I needed. . . . I take a bottle every now and then, even now, just as a tonic to keep up my strength, but I am in better health than I have been in for years."

All druggists sell Cardui. Try it.

What Makes Christmas?

Not the holly, nor the snow, nor the winter, nor the toys or gifts.

It is the thought, that the day brings, of the Babe born at Bethlehem - - of the thought that has gone over the world of Peace on Earth, Good Will to Men.

But nevertheless the holly, the gifts, the red and green wreaths, yes, even the brightly colored ribbons and paper used to conceal the holiday gifts are an important part of the day, *symbols* of the day.

And from them we take an important thought:

Appearance is not the man any more than the symbols make up Christmas, but as the symbols help to visualize the day so the appearance of a man helps to *picture* the man himself - - for a man's appearance is a plain statement of his opinion of himself.

And as a Christmas gift there can be none better than something that improves appearance.

A fitting gift in keeping with the thought—

**Miss Minnie Phillips
Presents Pupils
In Recital**

The talented little pupils of Miss Minnie Phillips, well-known Santa Ana music instructor, gave a very pleasing recital in the Chandeliers music room last Friday night. The program as rendered by the children consisted of a two piano number, "Spring Song" by Mendelssohn, charmingly played by Elizabeth Lenhardt and Esther Vogt; selections on the cello by Albert Green, pupil of Mr. Beach, accompanied by Lois Gill. Ernestine Wakeham, pupil of Miss Chaima Lindsay, gave a graceful dance, accompanied by Miss Vivian Smith, Miss Phillips' pupil. Five year old Barbara Cain, Thelma Glazcock, Vivian Smith and Lois Gill acquitted themselves well in piano solos, and all played from memory.

The following were those who participated in the program for the evening, all doing credit to their teacher:

Barbara Cain, Barbara Warne, Katherine Cook, Thelma Marks, Charles Spicer, Elizabeth Morrison, Fern Anderson, Frances Roberts, Clayton McKee, Joy Townsley, Patricia McClure, June Betty Miller, Jeanette Warhurst, Mildred Spicer, Louise Markwalder, Della Fowler, Muriel Gubi, Martha Waltingford, Betty Smedley, Louise Pea, Ernestine Wakeham, Lucy Chapman, Naomi Hazard, Virginia Herschler, Dorothy Jessup, Elva Cook, Katherine Chapman, Esther Vogt, Echo Miller, Susie Temple, Elizabeth Lenhardt, Thelma Glazcock, Vivian Smith, Katherine Jessup and Lois Gill.

**Nellie Elizabeth Cribaro
Celebrates Birthday**

Enjoying her ninth birthday with just twice as many little friends as she was years old, Nellie Elizabeth Cribaro, winsome daughter of Mr. and Mrs. Dick Cribaro of 439 South Sycamore street, was a happy little maiden last Saturday afternoon.

In honor of the anniversary of her young daughter, Mrs. Cribaro had made the living room most attractive with baskets of lovely pink sweet peas, with fluffy tulle on the handles, and the long table around which the group of happy children was seated to partake of the dainty refreshments, was centered with a beautiful birthday cake, with a cluster of nine pink tapers. The place cards, candies and ice cream carried out the pink color motif.

A number of games, dear to childish hearts, was played, Miss Sylvia Yelding being awarded first prize for pinning the donkey's tail in the right place and Miss Gertrude Klauson of Anaheim receiving the consolation. The children greatly enjoyed watching the honoree unwrap her many birthday gifts, the guest list:

Doris Barge, Virginia Belle Bruns, Doris Barge, Virginia Belle Bruns, Thelma Hicks, Virginia Congdon, Evelyn Brenner, Grace Lacy, Marie Jorie Gowan, Alice Hagan, Sylvia Yelding, Eleanor Mitchell, Harriet Susan Bryan, Barbara McCarter, Geraldine Gilbert, Jean McAuley, Helen Belle Bruns and Gertrude Klauson of Anaheim and Vivian Norton of Los Angeles.

Inhale the Vapors

For Catarrh and Colds

To relieve catarrh or check a head cold, melt a little Vicks in a spoon and inhale the vapors of Camphor, Menthol, Eucalyptus, Thyme and Turpentine. Also put a little in each nostril and sniff well back up the head.

Another way is to heat a tin cup, put in a teaspoonful of Vicks and inhale the vapors that way. As fast as the vapors lose their strength, throw out the melted Vicks and add fresh. Millions of mothers find Vicks the ideal remedy for croup and children's colds because it not only brings quick relief but avoids dosing delicate little stomachs with so much medicine.

**Well Known Citizen
To Become Benedict
February Eighth**

An event of interest to their many friends is the approaching marriage of Miss Bessie Roller of Los Angeles to Mr. Iyle Stein of Santa Ana. The ceremony will be performed by Rabbi Meyer Winkler at Paulais in Los Angeles on Sunday evening, February 8.

The bride will wear a beautiful white satin gown embroidered with pearls. Attending the bride will be her sister, Miss Ethel Roller, as maid of honor, the Misses Leona Klein and Alice Reicher will act as bridesmaids and dainty little Sybil Morantz and Miriam Kimmel will be the flower girls.

The groom's brother, who will arrive from the northern part of the state, will serve him as best man. Among those who are to arrive for the ceremony are J. K. Stein, Hoboken, N. J., Mr. and Mrs. Al Stein of Santa Rosa, and Mr. and Mrs. Harry Stein of Oakland.

**Pleasant Sunday Dinner
At Dixon Home**

Mr. and Mrs. Charles Dixon of West Fourth street were hosts at a pleasant little dinner at their home on Sunday last. Mrs. Dixon used beautiful lavender sweet peas from her own garden for a dainty table piece and the menu, with chicken as the piece de resistance, was enjoyed by the guests.

Besides the hosts, and their little daughter Mabel, covers were laid for Miss Nellie Keins, Miss Lula McDonnell, Mrs. Edith Purkiss, sister of the host, Bruce Walker and Jack Perkins of Colton.

The afternoon hours were passed with music and social chat.

**Evelyna Nunn Miller
In Art Exhibit**

After having enjoyed the beautiful paintings of Miss Anna Miller, well-known Laguna Beach artist, for the past month, Ebbl members and those who frequent the clubhouse will find a change in the exhibit.

The work of Evelyna Nunn Miller, a Santa Ana girl, has now been placed on the walls and can be admired through the coming month.

**Orange County Association
To Meet on Thursday**

Announcement was made today by Mrs. Arnold Peek that the Orange County Music Teachers' association will meet at her home, 1425 North Main street, next Thursday night at 8 o'clock, when it will be necessary to have a full attendance.

The feature of the program for the evening will be a lecture by Philip Tritz of Los Angeles, who will tell of the Music Teachers' association in Norway. Mr. Tritz has appeared before the kings of Norway and Sweden and has made interesting tours through Europe.

Miss Mabel Krause will please with instrumental numbers and Mrs. Marie Bishop will sing a group. Both are musical favorites in Santa Ana.

A. O. U. W.
A card party and dance was given by Mr. and Mrs. George W. Huff last Friday evening at their home on Russell avenue. The party was made up of members of the A. O. U. W. and their friends.

After a most enjoyable evening, during which "Sheik" Huff gave a little entertainment stunt, refreshments were served. Those enjoying the hospitality of the Huff home were Mr. and Mrs. Dimple and daughter of Los Angeles, the Misses Addie Pool, Lenabelle Hughes, Edna Collins, Melcher, Peggy Johnson, Margaret Shaw; Mmes. Drake, Lee, Fox, Shaw, Blanding, Hogue and Ballard; Messrs. William Lutz, Shaw, Fox, Ballard, Blanding, Avas, Homer Beck, George Huff, Jr., Pink Pool and Lloyd Pool.

**Former Minnesotans
Gather In Park
For Annual Meet**

One hundred and fifty people, formerly of Fairmont, Minn., gathered in pretty little Birch park last Sunday to enjoy an all-day reunion and their annual picnic dinner.

The last Sunday in January of each year in Birch park has been set as the day for the annual meeting of these old friends and neighbors, and more tables will be installed to take care of the increasing numbers who attend.

The following is a list of those who participated in the pleasant event last Sunday:

Mrs. J. H. Gorman, Mary E. Cook, Maud Rice Cole, Chas. N. Mentzer, O. W. Rice, Mrs. Stella Launsberg, Rice, William B. Thorm, Mary Vellica Rice Thorm, Mr. and Mrs. Fred Stowe, Lettie Stowe, Mable Shanks Kelley, Mrs. George Lester, Mrs. W. C. Mitchell, Mr. and Mrs. R. L. Tyler, Bessy Leone and John Davis, W. G. Rose, Anna S. Hackney, Barbara R. Jones, Daisy Rice Washington, Harry S. Washington, Mrs. E. J. Edwards, Dr. H. N. Rice, Mrs. H. N. Rice, Mr. and Mrs. E. T. Houseman, Alice Houseman, Addie Houseman, Alex. Lowe, Mrs. J. G. Mitchell, Mrs. Lydia L. Robinson, Mr. and Mrs. Joe Rose, Frank Blencoe, J. G. Mitchell, Sydney Jones and wife, Mrs. F. A. Sager, Mary L. Evans, Mrs. Herbert Slater, F. A. Sager, O. E. Sager, Mrs. R. H. Zierke, Miss Jean Zierke, C. W. Carpenter, Delbert Dale, Mr. and Mrs. Hubert Dale, Bernice Sather, Wallace Sather, Mr. and Mrs. George Swearingen, Nell Bird Sather, C. C. Livermore, Mr. and Mrs. R. W. Livergood, C. L. Colton and family, Mr. and Mrs. K. F. Woodward, Harry Woodward, Helen Woodward.

Mrs. A. H. Smith, Mr. and Mrs. William Cram, G. W. Buswell, Mrs. A. C. Buswell, A. O. Buswell, Mrs. C. W. Carpenter, Mr. and Mrs. Vain Stowe, Anne Stowe, Mary Eleanor Potter, Lillian Matson, Mrs. Ella Stowe, Mr. and Mrs. Mitchell, W. W. Ward, Mrs. W. W. Ward, Mr. and Mrs. Keith Stowe, Jack Stowe, Margaret M. Bowen, Mrs. A. Petrie, Mrs. K. Price, Mrs. Nancy G. Winn, Mr. and Mrs. G. V. Jewett, W. S. Rose, Mrs. A. A. Short, Mr. and Mrs. K. F. Stowe and son, Mr. and Mrs. Fred Bomboy, Mr. and Mrs. Chester Bonney, J. V. Parker, Mrs. J. V. Parker, George Wohlter, Mr. and Mrs. Guba, Miriel Guba, Mrs. Mowery, Mr. and Mrs. Lucian Sweet, Frank Wade, Helen Wade, Fern Hargrave, J. Hargrave, Mr. and Mrs. Stanley Anderson, F. O. Johnson, Mrs. John Anderson, Mr. and Mrs. Arthur Milbrand, Mrs. O. A. Gidderston, Mrs. August Wanarka, Mrs. Paul Jones, Mr. and Mrs. Jim Sweet, Bonney, Alfred Doney, William Doreward, Alex. Grant, Margaret Grant, Clarice Mitchell, Millicent Gorman, Mrs. W. F. Kasper, Mary Kasper, Frank Kasper, B. F. Woodward, Mrs. B. F. Woodward, Doris Buswell, L. Buswell, Mr. and Mrs. R. N. Bird, Leonard G. Holmes, Mr. and Mrs. E. W. Bird, Hally Dale, Mr. and Mrs. J. A. Stockhill, Mr. and Mrs. Homer Bomboy and son.

Tustin W. C. T. U.

The Orange County W. C. T. U. will hold its quarterly meeting in the M. E. church at Garden Grove, Friday, January 30 at 10 a. m. Lunch will be served at noon. Mrs. E. E. Pitt hopes for a large attendance of Tustin women, and asks that those wishing to go consult with her about transportation.

**NIGHT COUGH QUICKLY
RELIEVED**

This is the substance of a letter received from H. W. Webb, Quincy, Ill., "I coughed a great deal, especially at night. Tried almost everything and have found none so good as FOLEY'S HONEY AND TAR COMPOUND. One dose relieved my cough and I rested well at night." One of the largest selling cough medicines in the World. Contains no opiates. Safe for children. Insist upon Foley's. Refuse substitutes. Sold everywhere.—Adv.

**Santa Ana Ebbl
Enjoys Afternoon of
Unalloyed Pleasure**

Members of the Ebbl society and their friends, who had the good fortune to have been guests at the meeting yesterday afternoon in the clubhouse auditorium, are today recalling with pleasure one of the most delightful gatherings in the club's history.

The entertainers for the program, which followed the business meeting, which was also filled with interest, were the quartette and sextette participating in the recent municipal band concert in the high school auditorium, which were obtained for Ebbl by the efforts of Mrs. F. W. Slabaugh, business manager for the organization.

The thrilling quartette from Ritzletto was charmingly rendered by Raymond Miles, Maris Bishop, Mrs. F. W. Slabaugh, and Robert Brown, and they were joined by Dr. J. L. Collins and Maurice Phillips for the beautiful sextette from "Lucia," which is always a reminder.

Jerome Shaffer is a philanthropist, and he believes that it is better to give than to receive, as is shown by his remark that he has made half a million dollars during the past six years for schools and religious organizations with his clean and wholesome entertainment, which he said that Ebbl members especially were fighting for.

That Mr. Shaffer gives a program of impersonations, which could not fail to please the most critical, as was evidenced by the spontaneous applause he received by the large audience in the auditorium.

The impersonator believes in the joy of living and all of his selections, while containing much philosophy, brought gales of hearty laughter from the women. Mr. Shaffer being the only man in the house.

The program opened with a screaming parody on "The Charge of the Light Brigade," and what harralin hunter could not feel the thrill at the description of the harralin sale.

Full of ironical humor was "That Cultured Girl Again," and the little selection from the opera "Sal-lie," which Mr. Shaffer changed a bit to suit a man, led up to the hilarious speech of appreciation which the Englishman made to a gift of a silver toothpick and cheese toaster. He accomplished his make-up in view of the audience, as he did also for Aunt Matilda, which made the hit of the afternoon.

The children's numbers were delightful, and the program closed with the "Blushin'" chorus or the happy chorus, full of spontaneous joy. Mr. Shaffer, finding that his audience refused to leave their seats, returned to give a beautiful rendition of D'Hardelot's "Because."

Mr. Shaffer and his sister have been living at Laguna Beach, but are moving to Long Beach. They remained for the social period enjoyed in the banquet room, where the members of the First Travel section served dainty refreshments.

Among some of the interesting things brought out at the business meeting, presided over by its president, Mrs. Terry Stephenson, was the announcement of the gift by the Crystal Cleaning company of 100 coat hangers, \$100 from the garden section for the grounds, and a beautiful illuminated panel given by Mrs. L. G. Swales and the lettered names of the life members done by Miss Hazel Baum.

The members were proud to hear the wonderful financial report presented by the treasurer.

**Franklin-Lehner Nuptials
Solemnized Friday
At Ventura**

Shipping away to Ventura last Friday, Miss Daphne Franklin, daughter of Mrs. Viola A. Franklin of 1001 East Chestnut avenue, and Merritt G. Lehner, Fullerton, son of Mr. and Mrs. George Lehner of Sierra Madre, were quietly married by the Rev. C. C. McCausland, at the First Methodist church parsonage.

The marriage was solemnized at 2 p. m., the young couple being attended by Miss Dorothy Ritchey and Hobart Murphy, both of Ventura.

The bride was very winsome in her Canton crepe gown of beige with gold and blue embroidery with hat and accessories harmonizing. Mr. and Mrs. Lehner returned to Santa Ana on Saturday and are spending the time happily with trips to various points, including San Diego, where they motored today. Later they are planning a trip north on the Columbia highway.

Their future home has not been settled upon as yet, as the groom is with the Shell Oil company, only lately having returned from Persia. The bride has been for years a popular employee in the Santa Ana postoffice, and has made hosts of friends who will wish her happiness in her new life.

Mrs. N. A. Beals, supplemented by one from the secretary, Mrs. Robert G. Tuthill, stating that there were now 426 members, not including the 50 life members, and that there had been but six resignations.

Mrs. William L. Deinling, chairman of the ways and means committee, announced that a cash prize of \$10 will be presented the section which registers the largest attendance at the Monday afternoon teas, which so far have yielded \$26.

A colonial party is announced for the afternoon of Monday, February 16, and all who have costumes of that period are urged to wear them, so as to make the affair more colorful. The hostesses will be in the costumes of that period.

The Boulder Dam Project

By William J. Carr, Pasadena
(A series of articles, one to appear each week, on the Boulder Dam Project will appear in The Register. William J. Carr, writer of this series of articles, is a director and also vice president of the Boulder Dam association, an organization consisting of some two hundred cities, counties, chambers of commerce, farm bureaus, legion posts and civic organizations, all working together to develop the project. He has been following its development for several years, and is accurately informed in respect to its various aspects.—Editor Register.)

ARTICLE II THE SO-CALLED COLORADO RIVER COMPACT AND ITS RELATIONSHIP TO THE DEVELOPMENT

In this week's article, the writer had purposed dealing with the inception and development historically of the Boulder canyon project. Recent happenings, however, make it more timely to consider the so-called Colorado River compact and its relationship to the project.

Constant reiteration has served to create the impression, entirely unjustified, that the ratification of the compact by the Arizona legislature is a condition precedent, the sine qua non, to any development in the lower Colorado river basin. This idea has been used with extraordinary effectiveness as a pretext and ground for delay.

The compact, as is generally known, seeks to apportion and divide the waters of the Colorado between the upper basin states consisting of Colorado, New Mexico, Utah and Wyoming, and the lower basin states comprising Arizona, California and Nevada. It was negotiated by representatives of these seven states and of the United States, and at Santa Fe on November 24, 1922, and promptly approved by the legislatures of all the signatory states with the exception of Arizona. To become effective, it must be approved by Arizona.

Under the law as declared by the United States supreme court in a case arising between Colorado and Wyoming, priority of appropriation and use of the waters of an interstate river such as the Colorado gives priority of right irrespective of state lines. The economic development of the lower basin states is more advanced than that of the upper basin states. Present conditions in the lower basin justify great projects from which permanent water right may arise. The upper states, fearful of rights to the water of the Colorado being thus created prejudicial to their development in the future, insist that before there be any further development in the lower basin, their rights must be ascertained and defined.

Such protection may be afforded by a compact or agreement between the states. This, however, is not the sole or exclusive means of extending such protection.

Congress, in authorizing a major development in the lower river, such as the Boulder canyon project, can accomplish the same end by an appropriate provision making the terms of the compact govern as to any rights arising out of the project. It can do this because the United States owns the land where the dam will be built, power plants constructed, and across which canals to utilize water from the river must be run. As congress may refuse to allow the property of the United States to be used for any such purposes, it may allow its use upon terms and conditions by which the upper states will be extended full protection. And this is just what the proponents of Boulder canyon legislation have suggested and urged, namely, that a provision be inserted in the bill making all water rights growing out of the project subject to the terms expressed in the Colorado river compact as signed at Santa Fe.

The more liberal minded representatives of the upper states frankly recognize that it is compensation for congress to insert such a provision and that it will be effective. All they profess to fear is that congress may repeal the law extending such protection. As such repeal would be an act of bad faith, their fear does not seem to have any real basis. But they also say that the compact has become a political issue in the upper basin (which is true) and they do not care to be quoted or to take any position inconsistent with urging the compact.

There is nothing new in the theory that the federal government, in connection with granting privileges in respect to the public domain, may thus control the use of water and fix and delimit water rights. This is being done constantly by the federal water power commission in issuing permits and licenses. A good example of this practice—the effectiveness of which does not seem to have been questioned—is found in a permit recently granted to the Utah Power and Light company for a major development at Flaming Gorge site in Utah. This was granted on the condition that the permittee's

tion authorizing it.

While all this talk has been going on about the necessity of protecting possible future water needs and rights of the upper states, existing water rights of the Imperial valley seem to have been lost sight of. These rights are well established and important. They relate back twenty-six years and are prior in time and hence in right to all or nearly all of the appropriations under which projects up the river secure their water.

The use of water on these more recent projects has gradually reduced the normal flow of the Colorado river until there is frequently insufficient water left for Imperial valley. With storage at Boulder canyon, there would be ample water for the valley. Without storage and with the opportunity of securing storage being delayed, the Imperial irrigation district is being forced into the federal courts for injunctive relief against use of the water in the upper projects, to the depletion of the flow of the river necessary for the proper

irrigation of lands in Imperial valley.

This course of action, forced upon the valley by its necessities, may well serve a useful end. It will probably result in existing uses of water up the river being curtailed and future uses stopped. This, of course, will emphasize and bring about a better realization of the fact that both upper and lower basins are vitally interested in storage. Delaying this means loss and damage to each.

Treating the compact as a sole and exclusive means of protecting future rights of upper states (unless Arizona sees fit to ratify, which hardly seems likely) means long delays, litigation, loss and damage. Accomplishing the same end through the simple expedient of a provision in the legislation authorizing the Boulder canyon project means the same measure of protection to the upper states and at the same time storage in the lower basin, protection of existing uses of water in both basins, progress.

NEW LAW TO APPLY IN ANAHEIM VOTE

Amendment 18, adopted at the election last November and providing that voters who move from one precinct to another within 30 days before an election will not lose their vote, as formerly, is now effective and will apply to the Anaheim recall election, February 3, it was announced today by County Clerk J. M. Backs. The measure became effective when the secretary of state certified its adoption, Backs said today, answering various queries on the subject.

Voters who have moved out of the precinct in which they were registered, can go back to the old precinct on election day and vote, said the clerk. After the election, however, they must transfer to the new precinct, as

they could not continue to vote in the old precinct at subsequent elections.

The absentee voter law does not apply to any city election, only to county and state elections, Backs said.

JAP PRINCE ABROAD

KOBE, Japan, Jan. 27.—Prince Yasuhito Chichibu, second son of the Japanese emperor, will leave here this spring to spend four years in schools in England. He will enter Oxford university as a regular student, living in a dormitory with other students, an innovation for Japanese "Princes of the Blood." The first year he will devote most of his time to a study of English and then will take up sociology.

SURPLUS OF POETS

TOKYO, Jan. 27.—Japan has a great surplus of poets. More than 60,000 entered the annual imperial poetry competition, with poems on the subject of "Mountain Ranges Under the Blue Sky."

The Old Reliable Dr. BELL'S PINE-TAR HONEY FOR COUGHS

FOR quick, sure cough relief there is nothing like the pine-tar and honey, which our parents and grandparents relied on. But be sure you get the genuine Dr. Bell's Pine-Tar Honey, the original compound which has been used in thousands of families for years. It has had many imitations, but still remains the best. Often stops a bad cough in 24 hours. Perfectly safe for children as well as grown-ups. Insist on Dr. Bell's and no other. Only 30c at any good druggist's.

SAYS HARBOR MEETING WILL AFFECT WHOLE OF SOUTHLAND

Member of Long Beach Port Body Tells of Plans For Unified Control

BELT-LINE RAILROAD FIGURES IN SCHEME

Conference Is Making Bid For Three Million Dollar Gov't. Breakwater

A conference of the utmost importance to the development of the Los Angeles "greater harbor" plan, and indirectly to the industrial and agricultural development of the entire Southland, including Orange county, is taking place today in the Pacific Southwest Bank, Los Angeles, according to Charles E. Gordon, member of the Long Beach harbor commission, who visited the St. Ann's Inn yesterday.

Gordon is a harbor engineer of international reputation. For a number of years he was director of the Bureau of Public Works, Manila, Philippine Islands.

According to Gordon the conference are Henry M. Robinson, one of the authors of the Dawes plan for the re-establishment of financial normalcy in Europe; Carl Gray and E. E. Calvin, president and vice president, respectively, of the Union Pacific; William Spruille, president of the Southern Pacific; Paul Shoup, president of the Pacific Electric; Francis Lee Stuart, consulting engineer of New York City; Colonel S. W. Mudd, Maynard McFie, Harry J. Bauer of Los Angeles, and Charles E. Gordon, of Long Beach.

Plans Completed.
 According to Gordon, the greater harbor plans have been completed, and have been signed by engineering and operating representatives of the railroads concerned. The conference today is for the purpose of discussing the approved and completed plans with special reference to unified control of the "greater harbor" transportation, inclusive of all the rail lines in the harbor. The causation of unified control of transportation obtains in the recommendations of the Committee of Engineers to the Secretary of War, dated May 31, 1924, it was explained by the visitor.

Unified control of all rail lines, or its equivalent, must obtain before the government will assist in the construction of the breakwater. Therefore, it was pointed out, availability of the three million dollars recently voted by congress, to start construction of the breakwater, is dependent upon the conclusions of the conference unless a "publicly owned or controlled belt-line railroad, serving all terminals of the port" is provided for.

Such a belt line will be constructed, if unified control of rail lines fails to develop in order to comply with one of the conditions imposed by congress. The wisdom of the U. S. Board of Engineers in stipulating unified control is apparent when it is understood that such control would eliminate the possibility of discriminatory and excessive switching charges—an evil that largely obtains in American ports.

Praise Stuart.
 Gordon was led in his praise of Francis Lee Stuart, who he claimed as one of the best engineers that has visited this coast. Formerly he was chief engineer for Erie, and Baltimore and Ohio railroads; en-

PAIR FIND ADVENTURES STILL LURK ALONG BROAD HIGHWAYS

EXPECT LONG, BITTER FIGHT ON DAM SITE

Six weeks will be reserved on the superior court calendar here for the expected bitter legal battle between the city of San Diego and the Cuyamaca Water company over the El Capitan dam site in San Diego county, court records revealed today.

In overruling a demurrer of the water company yesterday, Judge Z. B. West set the trial for June 15 and reserved the remainder of June and the entire month of July for the case.

The court's ruling was given late yesterday following argument by counsel for the city, in reply to the water company attorneys who presented their demurrer last week. The city's condemnation suit was transferred from San Diego county to the superior court here.

Challenging the doctrine advanced by counsel for the water company that the city of San Diego has no legal right to condemn the El Capitan site to meet anticipated needs of the future, Attorney Cosgrove, former city attorney and now special counsel for the city in the El Capitan case, declared that such a doctrine is "a sad commentary on the law of eminent domain."

"It would be a sad situation and a sad plight for any community," said Cosgrove, "if a city operating a public utility could not look into the future, and far into the future, to anticipate its needs, and then provide for such needs."

In his argument Cosgrove took up, in turn, the four points raised by the water company lawyers in their argument last week. One was the requirement of a direct allegation in the complaint, that the city had "duly" passed the ordinance under which it moved to acquire the El Capitan site.

Another point was alleged defects in the complaint, with reference to citing the necessity for the condemnation, and the showing that the improvement is planned in a manner compatible with the greatest public good and the least private injury.

(Continued on Page 8.)

STATE RETAIL BUREAUS WILL CONVENE HERE

Originating in Santa Ana two years ago, the California Association of Retail Credit Bureaus, the largest in the United States, will hold its next meeting in Santa Ana in May, it was announced here today by Robert Conway, manager of the Orange county bureau, co-incident with announcement that S. E. Tingley, of the Tustin Lumber company, has been elected to the board of directors of the local association, to succeed Harry Wilson, of the W. P. Fuller company. Wilson has been transferred to Fresno where he will have the management of the company's business there.

Recounting some of the details of the organization of the California Association of Retail Credit Bureaus, Conway said that when five managers of credit bureaus of the Southland met here two years ago they little dreamed of the institution that would within two years become the largest of its kind in the United States.

The managers were W. O. Talbot, of San Diego; Captain Connor, of Pasadena; A. V. Storer, of Pomona; G. W. Leo, former secretary of the local organization and now manager at Santa Barbara, and Conway.

"Two years ago only twenty cities in California were organized for the interchange of credit information while at the last meeting of the state body at San Jose on January 17, the membership totaled 45 merchant-owned bureaus intensively coordinated in their work," said Conway. "The progress made in organized retail credit reporting is further indicated by the fact that there are now 343 bureaus in the United States members of the credit service division of the National Association of Retail Credit men, while one of the oldest wholesale reporting agencies, has only 200 offices. It is now possible for a merchant in Santa Ana to obtain an intelligent retail credit report in any part of the United States in a remarkably short time through the local accredited agency."

Told to Live Outdoors
 Baxter, who is a world war veteran and member of Menahan post, No. 61, American Legion of Sioux City, Iowa, served overseas for 28 months and 18 days. Upon being discharged from a government hospital he was advised to get out into the open if he wanted to live.

A close friend of his father became interested in his case and as a matter of inducement to keep him outdoors, made him the following proposition:

"To start out on a 50,000 mile hike without a cent; to complete the trip in seven years; make all expenses on the trip; never ask for a lift but to accept it if offered, but not to ride on trains except through heavy swamp lands. As a reward for carrying out these terms, Baxter is to receive \$10,000."

"To tell the truth I wasn't very keen about the offer, as a matter of fact I didn't care what became of me, I had lost all interest in life and was ready to pass out," he told the reporter, relating his experiences. "My wife induced me, however, to give it a trial, with the result that we started out from Washington, D. C., December 14, 1921."

Visit Every State
 Baxter is a native of Minneapolis, Minn., where he was engaged in the hotel business before joining the army during the World War. His wife hails from Clinton, Ill. Prior to marrying she taught school at Sioux City, Iowa.

They have visited every state in the Union, in addition to Canada.

ADDITIONS AT LOCAL LIBRARY ARE ANNOUNCED

Local book-lovers will no doubt be much interested in the additions to the shelves at the Santa Ana public library. There are some particularly noteworthy works as will be seen by a perusal of the following list, prepared by Miss Jeannette McFadden, librarian:

Allinson, Anne—"Friends With Life"—A sincere and stimulating discussion of the every day ethical problems of young American men and women, addressed primarily to high school and college students.

Ansell, Mary—"Dogs and Men"—Tells of Porthos, the St. Bernard who once shocked a congregation of Scotch Presbyterians by actually climbing into the pulpit; of Luath, the Newfoundland who played as Nana in Peter Pan. The dogs "come off" sometimes better than the men.

Bellou, Hilare—"Economics for Hellen"—In perfectly simple language which Helen, aged 16, or anyone else could understand without perplexity, Mr. Bellou explains the mysteries of economics.

Fairbanks, Douglas—"Youth Points The Way"—Tells how he has secured a youthful enthusiasm for life and what he does to retain it undiminished.

Harry, Myrian—"A Springtime in Palestine"—A sympathetic interpretation of the lure of Palestine, the tragedy and beauty of the past, and a vivid portrait of the multitude of human types that crowd into Jerusalem every Easter tide.

Huxley, Leonard, ed.—"Jane Welsh Carlyle"—Letters to her family which depict one of the whitest, most appealing personalities of the 19th century.

Moses and Gerson—"Clyde Fitch and His Letters"—A recreation of all the faith and joy and genius for friendship which marked the life of Fitch. His letters breathe of warm associations with Robert Herrick, Maude Adams, Kate D. Wiggin and William Dean Howells.

Newton, J. F.—"Best Sermons of 1924"—First of a series to be published annually. Open to all American creeds and denominations, sermons concerned with social conditions and every day life and to the discussion of the great question of human destinies.

Saffsbury, John—"Sea Gray"—A story of travel and adventure in strange lands. Murderer's Island, Sumatra, the Andamans, and Jidda on the Red Sea and a rare excursion into Abyssinia, a gorgeously colorful kingdom of yesterday.

Wellman, Francis—"Gentlemen of the Jury"—Reminiscences of thirty years at the bar. Many amusing experiences in open court. The dignity and importance of being a juror discussed.

Cooperating in the movement in the interest of greater safety on streets and county highways, Claude L. Rogers, chief of police, and the Orange County Automobile Trades association, through its secretary, A. B. Shugart, today announced arrangements for a series of brake tests for automobiles to be conducted here Thursday, Friday and Saturday.

Saying that the tests would be made free of charge, Shugart said that the testing ground would be on West Fifth street, between Baker and Bristol, with experienced men directing the tests. The hours each day will be from 9 a. m. to 4 p. m. A. J. Buckmeyer and Reese Bird, men who have been conducting similar tests at other points in the state, will direct the tests, and will be assisted by H. D. Jaynes, one of the city motorcycle officers.

It was pointed out by Jaynes that two-wheel brakes, to be effective, should stop within 37 feet when a car is driven at a speed of 20 miles an hour. Cars with four-wheel brakes and traveling at the same rate of speed, should be halted within 24 feet, seven inches.

Lines will be marked on the street and the tests made according to accustomed regulations. Instruments in use have been approved by the United States bureau of standards.

Owners whose cars meet the requirements of the test will be given a sticker indicating the fact.

(Continued on Page 8.)

"SAFETY FIRST" IS SLOGAN FOR BICYCLE PARADE HERE

SHOWING CORRECT POSITION IN WHICH TO RIDE A BICYCLE IN SAFETY. NOTE THE BELL ON THE HANDLE BAR.

Photo shows Fred St. Onge of the Cycle Trades of America astride his modern bicycle. St. Onge will lead a big Safety First Bike parade here Saturday morning at 11 o'clock starting at St. Ann's Inn, and ending at Polytechnic Athletic Field where a Safety First demonstration in cycling will be given together with the awarding of 35 prizes to riders in various divisions. All cycle riders are welcome. There will be no racing. Safety First is the slogan in this parade.

AUTO BRAKES TO BE TESTED WITHOUT COST

Cooperating in the movement in the interest of greater safety on streets and county highways, Claude L. Rogers, chief of police, and the Orange County Automobile Trades association, through its secretary, A. B. Shugart, today announced arrangements for a series of brake tests for automobiles to be conducted here Thursday, Friday and Saturday.

Saying that the tests would be made free of charge, Shugart said that the testing ground would be on West Fifth street, between Baker and Bristol, with experienced men directing the tests. The hours each day will be from 9 a. m. to 4 p. m. A. J. Buckmeyer and Reese Bird, men who have been conducting similar tests at other points in the state, will direct the tests, and will be assisted by H. D. Jaynes, one of the city motorcycle officers.

It was pointed out by Jaynes that two-wheel brakes, to be effective, should stop within 37 feet when a car is driven at a speed of 20 miles an hour. Cars with four-wheel brakes and traveling at the same rate of speed, should be halted within 24 feet, seven inches.

KIN OF FAMED NORSE AUTHOR, ALSO WRITER, VISITOR HERE

Captain Tancred Ibsen Is Touring California In Quest of Material

IS INTERESTED IN HIGH GRADE FILMS

Plans to Screen Historical Picture In Norway on Return Home

Echoes of an intense nationalism, which in the past few days changed the name of Norway's capital from "Christiania" to "Oslo" reached Santa Ana yesterday when Captain Tancred Ibsen, of the Royal Norwegian army, and a grandson of Henrik Ibsen, the famous author of "Ghosts," "Hedda Gabler," "John Gabriel Borkman," registered at Hotel Cooper.

Accompanying Captain Ibsen were M. D. Dudley, retired capitalist and mining engineer, owner of Windsor Manor, one of the show places of Riverside, and Mrs. Dudley. Dudley ranks as one of the leading mining engineers in the county. Before retiring from business he was connected with the development of large mining properties in Arizona, New Mexico, Texas and western Texas. He has also acted as consulting engineer to concerns operating in Central and South America.

Captain Ibsen is the son of the late premier of the northern kingdom. His grandfather on his mother's side was equally famous and distinguished in the world of letters as Henrik Ibsen, his paternal grandfather—none less than Bjornstjerne Bjornson, poet, dramatist, novelist and outstanding figure in the political life of the nation.

Like his distinguished grandfathers, Captain Ibsen has taken to writing and is at present collecting material for a volume dealing with the travels and discoveries of the early Norsemen.

Both Captain Ibsen and Mr. Dudley are interested in high-class picture films, particularly those portraying historical events, and have already made plans for the filming of a Norwegian super-production in that country. They will leave next month for Oslo, the Norwegian capital, where they will be joined by one of the leading Swedish art companies, operating in and out of Stockholm, which will do the filming.

NEW MEMBERS OF LODGE ENTERTAIN

Two hundred and fifty members and visitors today continued to cheer themselves when they recalled incidents of the amusing program presented at the meeting of Sycamore Rebekah lodge, No. 140, I. O. O. F. Saturday night, by new members of the lodge.

The group entertained with a circus, including a band, wild man of Borneo, walking skeleton, organ-grinder, clowns and other features that usually make a complete circus. Pennies collected by the organ-grinder were sent to the orphans' home.

A Valentine party will feature the next meeting of the lodge. Home-made Valentines will be sold, the proceeds going to the orphans' home.

Put On Diamond Tires and Forget Them

It is sure great stuff when a man can have confidence enough in his tires to be able to put them on the car and then forget about them.

It's becoming a hard enough task to drive a car on crowded roads without having doubt about your car equipment added to the strain.

Herbert L. Miller GUARANTEES PERSONALLY that you can acquire this confidence in tires through experience with Diamond Tires.

Try them and find it out for yourself. They don't cost a bit more than lots of other good makes. But they are SPECIALIZED TIRES—the factory makes only ONE GRADE!

EXPECT LONG FIGHT UPON DAM SITE

(Continued from Page 7)
The fourth was the water company's contention that the com-

plaint does not set forth an immediate need for an enlarged water supply, and that the city has no right to condemn the site in anticipation of future needs. It was the latter point, which drew the fire of Attorney Cosgrove as a dangerous doctrine. He combatted the water company's argument on that and other points by citing legal authorities and decisions, some of them previously cited by the defense to uphold their own contentions.

To All Car Owners:

We respectfully ask that you take advantage of having your brakes tested **FREE OF CHARGE** this week, either **THURSDAY, FRIDAY or SATURDAY, January 29, 30 or 31, on the**

**OFFICIAL BRAKE TESTING GROUNDS,
Fifth Street, between Baker and Bristol**

This Association and the Police Department of Santa Ana are sponsoring this **Safety Campaign** and we all want to make Santa Ana **SAFER** by knowing that all the cars have good brakes.

Bring in your car any time of the days of testing and you will receive courteous treatment, be given a card showing just what is the matter with your brakes, and if they are O. K., we will give you a sticker for your windshield, showing the public you have had your brakes tested. And then every third day always have your brakes tested to keep them O. K.

**THIS MAY BE THE MEANS OF SAVING YOUR LIFE
SOME DAY**

To All Dealers, Garages:

We wish to assure you all, no matter if you are a member of the Orange County Auto Trades Association or not, that this brake test week is put on as a **Safety Campaign** to make Santa Ana Safe.

In making the brake test we will not send anyone to any particular dealer or garage man, but the car owner will be given a card saying just what is the matter with his brakes, and it is up to you to make this Campaign a success by giving courteous treatment and be very particular with your work, and to have them come back for final test, or you may bring the car over and have it tested after you have done the work.

**NO ADJUSTING WILL BE MADE
AT THE TESTING LOCATION**

**Fifth Street between Baker and Bristol Streets
All get together and make**

Santa Ana Safer

Respectfully yours,
**Orange County Auto Trades Association,
By H. A. Shugart, Acting Secretary.**

3 SCHOOL BOYS TRY IN VAIN TO GET INTO JAIL

Three high school students know what it is to live a bum's life for one night without ever enjoying the privileges of a bum.

When the high school band returned from Ontario last Thursday, after giving an entertainment before the Community's Men's Bible class there, Louis Napier, James Briggs and Derwood Page, members of the band, were accidentally left stranded. They were attending a motion picture show when the auto departed.

On realizing their predicament when they found that no transportation facilities were operating at the late hour, the students sought out the jail.

"We would like to use one of your free rooms for the night," they told the jailer after explaining their plight. Their request to be arrested was refused, however, and they were turned away, forbidden a bum's privilege.

The long hours of the night dragged heavily as they walked the streets of the city, devising means of whiling away the time. The small amount of money that they had was in pennies and with those they held a contest to determine who could toss the coppers nearest to the line of street car tracks.

As the morning dawned, the adventurers started to walk back to Santa Ana, hoping to be given a ride. Before long a passing autoist offered a "lift" for part of the distance. The remainder of the journey was made in another jaunt and the boys were back at school for their first class, but still they were home.

AUTO BRAKES WILL BE TESTED

(Continued from Page 7)

Those having cars with defective brakes may have adjustments made and upon returning to the testing field will be given the sticker, if the cars stop within the limit.

"One of the valuable features of the test will be the advice that will be given owners of cars whose brakes are not up to regulation," Shugart said. "Effective brakes

Mexico and Cuba. From here they will go to San Diego.

"We have walked through the snow when the mercury threatened to freeze in the glass," he said, detailing his experiences.

"At the time we were caught in the cloudburst in Idaho, we were forced to hang on to the framework of a bridge which had been swept away by the rushing waters to keep from being drowned."

Take Refuge in Lake

According to their own version of the affair, they had a narrow escape from death in the forest fire in which they were trapped. He and his wife were fleeing before the leaping flames until they reached a lake where they stayed immersed all day until the fire had passed.

Touching upon other experiences, the hiker said that probably the one that came the nearest to proving fatal was when they were lost in the desert outside of Goffs.

"We were without food and water for three days," he remarked. Finally we saw an automobile looming up in the distance. We knew that there must be a highway there and we finally found it. Later on a car picked us up and took us to Los Angeles. That was about two years ago.

HARBOR MEET TO AFFECT SOUTHLAND

(Continued from Page 7)

gineer adviser of the port development of Baltimore. He also holds the position of consulting engineer to the city of Chicago, the New York Port Authority, and the Greater Harbor Committee of Two Hundred.

Speaking further, Gordon said that the railroad executives have taken great interest in the development of the "greater harbor plans," and appear to be aware of the tremendous commercial possibilities incident to proper harbor development. It means that rail development will be fully complementary to water development.

REWARD FOR LIZARD

CONSTANTINOPLE, Jan. 27.—A reward of fabulous size has been offered for the return of a pet lizard stolen from the hotel suite of the Countess Christine of Bulgaria. The lizard wore a red, white and blue ribbon around its neck and had been taught to make a sound which resembled "mamma."

reduce the possibility of accidents. I am satisfied there are hundreds of cars in Santa Ana that are 'lame' with respect to braking equipment. The association is cooperating with the city marshal in offering a service that every owner should appreciate."

LOCAL JUNIORS TO MAKE STUDY OF INDUSTRIES

Planned for the purpose of securing information regarding manufacturing firms in Santa Ana and vicinity, the next meeting of the Junior Chamber of Commerce, February 9, will be given over to exhibits and talks by men connected with the establishments, it was decided by the membership at last night's dinner gathering at Ketterer's cafe.

It is probable that the regular meeting place of the organization will have to be changed in order to accommodate the exhibits and the crowd which is expected to attend.

A committee consisting of Milburn Harvey, L. C. Elliott, J. V. Connett, W. P. Parks and George Baker was appointed by President L. D. Crawford to act with the board of directors in arranging the program.

Decision to hold the meeting was reached after several members of the chamber, among them Jesse Elliott and Jack Wallace, had urged that Santa Ana-made products be given more patronage.

Entertainment at last evening's meeting consisted of a one-act playlet, "Food," and numbers by the recently former Junior Chamber quartette, which was officially dubbed the "Four Horsemen of the Apoplexy."

Emil Faust, Madeline Moase and Ruell Yount were the characters in the playlet. They were directed by Ernest Crozier Phillips, director of the Community Players. Written by William C. De Mille, the play concerned the shortage of eggs several hundred years from now. The pleadings of the fair heroine for an egg and the refusal of the stern husband, coupled with the entrance of the villain with the coveted egg, brought gales of laughter from the audience.

The quartette, composed of Dr. A. L. Collins, Carl Opp, Ray Simpson and Willard Lutz, was well received. E. M. (Sunny) Sandquist presided at the piano.

Because of examinations, the students who were scheduled to conduct a debate at the meeting were unable to be present. It was stated that the young debaters will be on hand February 23.

Facts concerning the Orange county hospital and farm were given by Dr. Harry Zaiser, superintendent. Dr. Zaiser explained the working of the hospital and farm, and invited members to pay a visit there at any time.

That the institution realized \$10,000 from the sale of oranges last year was the statement by the speaker. There were 1234 patients accommodated at the hospital last year, he said.

Dr. Zaiser stated that from 120 to 130 patients were at the hospital all the time. This number included the tuberculosis patients, he said. The speaker mentioned that the Orange county supervisors, together with those of Imperial valley, have secured a tract of land four miles north of Beaumont and will erect a complete tuberculosis hospital there.

You May Never Know

You may never realize the importance of your brakes until they fail you on a hill. Your life depends upon the brakes, in traffic. Brakes in good condition prevent costly damages, yet most of us never give them a thought. Why not make sure about your brakes? Why not have them regularly inspected by us? Why not let us adjust them, and assure you that you can depend upon them.

When they need re-lining, we put in Johns-Manville Non-Friction Asbestos Brake Lining. Brakes are safer and last longer with this lining, made at asbestos headquarters.

Make sure about your brakes. Arrange to have us look them over this week.

WALL ST. JOURNAL

NEW YORK, Jan. 27.—Urgent demand for oil shares came into the market at the right moment in today's session. The development occurred at a time when the efforts of the professionals working for lower prices seemed destined for a greater degree of success than had been accorded them on other occasions when similar attempts were made.

Before the general list was started by the buying movement in oil, substantial recessions were forced in various sections of the list, especially among the high priced industrials. Following Woolworth's drop, good sized declines were brought about in East Iron Pipe, American Can, Baldwin and similar speculative favorites.

The selling was checked in the early afternoon by the impressive buying which was plainly evident in the oil group, notably in Pacific Oil. Slightly and the listed Standard Oil shares. This accumulation which was based on the rapidly with which production is slumping in the Western field, gave the entire market a better tone in the late afternoon.

The market closed irregular. Closing prices included: U. S. Steel, 126 1/2, up 1/4; Baldwin, 130 1/2, off 1/4; Standard Oil, 42, off 1/2; Can. 164 1/2, up 1/4; Woolen, 62 1/2, up 1/2; East Iron Pipe, 177 1/2, up 1/2; General Electric, 305, off 1/4; General Motors, 74, up 1/4; American Locomotive, 114 1/2, up 1/4; Texas Company, 46 1/2, up 1/4; Radio, 66 1/2, off 1/4; Marland, 44 1/2, up 1/4; Woolworth, 115 1/2, off 1/4; Foundation, 194, up 2 1/2; New York Central, 121 1/2, up 1/4; Reading, 77 1/2, up 1/4; Lehigh Valley, 74 1/2, up 1/4; Prisco, 55 1/2, off 1/4; M. K. & T., 35, up 1/4.

CHICAGO CASH GRAIN

CHICAGO, Jan. 27.—Divided action features trading in wheat on the board of trade today. May options on the advances stopped at \$1.93 1/2, a new post-war record—but in the final selling receded an additional half point, finishing the day at \$1.91 1/2.

The supply and demand situation played a leading role in today's sharp advance in May wheat. With the fact known that leading producing countries have shaded their original yield estimates, Broomhall today in cut the Canadian prospect eight million bushels. The Pacific northwest and parts of Nebraska reiterated crop damage statements. This led to the belief amongst some traders that leading millers would come into the market for May contract wheat. Exports totaled 750,000 bushels.

Firm tone in the cash market brought out influential support in the corn pit and this grain finished with a fractional gain. Oats made sympathetic gains and were also influenced by small Canadian exports. Higher provisions reflected stronger grains and higher cables.

KANSAS CITY, Mo., Jan. 27.—A new post war record for cash wheat was made on the local grain exchange today when No. 2 Red sold at \$2.12.

OMAHA, Neb., Jan. 27.—Wheat brought the highest price paid on the Omaha grain exchange since the war today when one car of No. 2 dark northern spring sold for \$2.11 per bushel.

Financial and Market News

L. A. PRODUCE

LOS ANGELES, Jan. 27.—Trade today was moderate with the market steady. Apples continue firm and citrus fruits steady. Pears continue steady, account of continued rains in northern districts. Cauliflower is lower following declines in the shipping market.

Apples: California Yellow Newtowns, best, \$4.50-\$5.00; few, \$3.25 cwt. Oregon: face and fill, \$2.15-\$2.25. Extra fancy Spitzenbergs \$3.25 box. Washington: Spitz Winesaps, \$3.15 box. Mr. and Mrs. M. J. Marks of 615 West Fourth street went to Los Angeles last Saturday to visit her daughter and son-in-law, Mr. and Mrs. A. C. Van Velzer, and upon arrival found them rejoicing over the birth of a nine-pound little son, who was more than welcome because he is the first boy in the family. Mrs. Marks returned home Sunday.

Mr. and Mrs. C. P. Thompkins and little daughter, Bernice, of Anaheim were Sunday guests at the home of Mrs. Thompkins' parents, Mr. and Mrs. J. H. Thompkins of 711 South Sycamore street.

Mrs. L. C. Benton and son, Larry Louis of Los Angeles are here for a few days' visit with the former's parents, Mr. and Mrs. C. T. Wells, 706 South Sycamore street.

Mrs. Etta Endl of Los Angeles is a guest at the home of Mrs. Eleanor Elliott of 821 Riverine avenue, coming down to attend the funeral of Don L. Miniken.

The many friends of Mrs. W. G. Gould, who is in the Olive Heights private sanitarium, will be pleased to know that her condition is so much improved that her family feels that she is out of danger. While Mrs. Gould cannot yet receive callers, friends may write to her at the sanitarium or send other greetings.

Mr. and Mrs. Joe Mendenhall of 2005 South Broadway returned last night from a pleasant week's sojourn at L. O. Vaughn's cottage, Alder Lodge. While hiking about the mountains, Mr. and Mrs. Mendenhall saw twenty-one deer. They had to hike quite a distance before finding any snow.

Friends of Dr. Ada K. Henery, who has arrived from Bozeman, Mont., are giving her a hearty welcome at the home of her parents, Mr. and Mrs. W. B. Keller, 504 West Fourth street, where she will make a visit of several weeks. Dr. Henery traveled west on the big Montana special composed of two sections with 20 Pullman cars. The Montanans are making a tour of California.

Mrs. A. C. Sellon, who has been a guest at the Downie home on West Santa Clara avenue, left today for Kansas City, Mo., traveling via the Union Pacific.

Mrs. William Emmett of Garden Grove is planning to leave tomorrow night over the Southern Pa-

Spanish Girl Is Hurt In Accident

Mae Granados, young Spanish girl, was cut and bruised in an accident at First and Bristol streets yesterday afternoon, when the car in which she was riding with George Flores, 917 Logan street, collided with a car driven by R. E. Jackson, 703 Pantages building, Los Angeles, according to a report from the Santa Ana Valley hospital where she was given medical attention.

No one was hurt when the automobiles driven by Leonard Campbell, 29, of Orange, and A. W. Smith, 346 Riverine street, Santa Ana, collided at the intersection of Tenth and Main streets yesterday afternoon, although both cars were wrecked.

cific last night going to San Francisco.

Mrs. Mary Hostick of 1127 South Shelton street, was an outgoing passenger over the Southern Pacific last going to San Francisco.

Miss Emma Wells and Miss Ada Bosley of Adelaide, South Australia, sister and cousin of Mrs. C. H. Stanley of 1135 West First street, left last night on the Southern Pacific Padre for San Francisco, being called by the illness of a niece. The travelers arrived in California last October, and at the conclusion of a six months' stay, will go to England to remain another six months before returning to their home in Australia.

QUICK RELIEF FOR COUGHS AND COLDS

AFTER THE FIRST DOSE
Go to your druggist today. Get a bottle of Rosine's Eucalin. It will clear the bronchial passages, loosen up congestion and bring that pleasant relief as only Eucalyptus can do when properly combined as in Eucalin. Give Eucalin to the children as it contains no narcotics, chloroform, or other habit forming drugs. For Spasmodic Croup and Whooping Cough it has no equal.—Adv.

A COUGH REMEDY WITHOUT OPIATES

Many cough preparations contain some one or more harmful drugs which are added to take the place of opiates. None of these narcotic substitutes have ever been used in FOLEY'S HONEY AND TAR COMPOUND. The name of every ingredient is plainly printed on every carton. You know what you are taking when you take Foley's. It clings to the throat, good for old and young. You have a cough, why not try it. Refuse substitutes. Sold everywhere—Adv.

SAHARA BUS FAILS

PARIS, Jan. 27.—The plan of M. Citroen, the Henry Ford of France, for a motor bus line across the great Sahara desert, with the busses mounted on caterpillar tractors, has been abandoned mainly because of hostile desert tribesmen. Another reason was that few rivers of the desert have been at "flood stage," making passage of them impossible because of the mud.

Here's the Latest--Cod Liver Oil in Tasteless Tablets

Greatest Flesh Builder For Skinny, Weak, Run-Down People--Full of Vitamins

No more will weak, thin, unfortunate children cry in protest when the nasty, fishy-tasting, horrible-smelling cod liver oil is brought out.

Medical science progresses rapidly, and now you can get at your druggist's real, genuine cod liver oil in sugar-coated tablets that young and old can take with ease and pleasure.

Even the run-down and skinny grown-ups, who ought to take cod liver oil, because it really is the greatest vitamin food and builder of healthy flesh in the world, will feel extremely joyful when they read this welcome news.

Of course, doctors have been prescribing cod liver oil in tablets under another name for several years, but it is only of late that one can walk into a drug store and get a box of these flesh-producing tablets just as easy as a bottle of cough syrup.

Thin, run-down, anemic men, women, and children who need to grow strong and take on flesh are advised to get a box of McCoy's Cod Liver Oil Compound Tablets, and if you don't gain 5 pounds in 30 days just get your money back.

One woman gained fifteen pounds in five weeks, according to her own doctor--another ten pounds in three weeks. A very sickly child, aged nine, twelve pounds in seven months, and now plays with other children and has a good appetite.

Just ask for McCoy's Cod Liver Oil Compound Tablets. White Cross Drug Co., C. S. Kelley Drug Co., Mater's or any good druggist will tell you that they are wonderful flesh and health builders, and don't forget that they are wonder workers for feeble old folks.

Get McCoy's, the original and genuine, and beware of imitations.

Stage and Screen

Tom Mix and Tony, the horse, in a scene from "Teeth," current attraction at the West End theater.

5 VAUDEVILLE ACTS ON YOST BILL TONIGHT

Five pleasing acts of Junior Orpheum vaudeville are promised by Manager E. D. Yost for presentation at the Yost theater here tonight and tomorrow. A resume of the cast follows:

Numerous characters will be delineated by Cliff Clark. It is said that this artist faithfully reproduces the people one meets every day in the ordinary walks of life. Clark is famous also for his Irish stories. He relates a description of a party, which he attended, and the result invariably is a scream.

Dancing cannot be measured with a yard stick, and Bennington & Scott's billing, "Three Feet of Dancing," describes the execution of their dances rather than the measurements.

The Royal Sydneys are known the world over, having played in eleven different countries in the last seven years. Their present act is new and full of novel ideas. Sydney is the only one-wheel juggler on the stage today, while among other features Miss Sydney will wear the largest dress in the world and ride the smallest bicycle.

"The Wonder Girl" is the little person who has outdistanced all vaudeville and circus performers in aerial endeavors. She poses in midair, whirling, somersaulting and swinging in tremendous sweeping arcs, that carry her far out over the heads of the audience.

The Four Gregg sisters, known as the "Musical Misses," present a very pleasing and entertaining offering. Miss Angeline Gregg is the solo pianist and accompanist. Miss Babe in spite of her tender years is undoubtedly one of the best cellists on the vaudeville stage and Misses Ruby and Ivy are violinists and vocalists.

"THE ROUGHNECK" AT YOST TONIGHT

"The Roughneck," the special production, now being shown at the Yost theater, is proving to be an honest-to-goodness sensation. There is no gainsaying this. Likewise there can be no denial of the fact that local picture-goers are literally fighting to get in the theater to see it. There are no doubt several reasons for this unusual popularity, but, perhaps, the outstanding cause is the intensity and frank realism of the love story unfolded so dramatically with handsome George O'Brien and beautiful Billie Dove as the lovers.

"The screen doesn't often show such attractive lovers in such intense scenes in such marvelously seductive locales," is the declaration of one critic. And this seems to be regarded by the film-loving public here as entirely true.

Is enjoying real prosperity and the reputation of Mr. Fox as a producer is soaring as a consequence.

CAN'T SOAR UP

BRUSSELS, Jan. 27.—Birds cannot fly to a higher altitude with moving their wings, Maurice Boel, Belgian army expert, says after a study of South American birds. Some students of bird flight had asserted this was possible. The condor holds his wings rigid and flies along at a gradually decreasing altitude by working his tail feathers with a movement similar to that of a sculling oar, but he cannot gain altitude in this manner, Boel says.

OBLIGING MURDERER

TOKYO, Jan. 27.—A young Japanese student, after killing Kimi Matsui Nakagawa, principal of a large school, went to the latter's home and told his wife where she could find the body. He then disappeared. The slaying resulted from a dispute between the principal and the student over his conduct in school.

YOU COST \$2500

LONDON, Jan. 27.—It costs at least \$2500 to bring a baby into the world and care for him until he develops into a man of 21, says Sir Berkeley Moynihan, distinguished British surgeon. This includes food, clothes and education.

Movie Chatterbox

What is it that assures happy marriages among the makers of the movies? The same things which tend to wedded bliss in any other rank of life.

Tolerance and patience are the prime demands.

Take Corinne Griffith's word for it! This beauty of universal screen renown has just ended her first year of married life as the bride of Walter Morosco, son of the theatrical producer, and considers herself well qualified to talk on the subject.

"Viewing married life from the foundation laid during our first year," said Miss Griffith, discussing the topic with the United Press. "I would say that, with love, the exercise of these two qualities—tolerance and patience—makes for happy wedded life among couples engaged in film work more than any other virtues."

Overlook Shortcomings

"Tolerance, of course, entails a charitable view of shortcomings. It's reasonable to expect that the type of person gifted in one direction, as 'professional people' are, may be lacking in other traits."

"I mean by this that the artistic husband may come home to his wife on her birthday with a perfectly inartistic lapse of memory, bringing neither presents nor a recollection of the day's significance. Yet he is not derelict—he is simply absorbed in his work and has innocently overlooked custom and courtesy."

"This may and does happen in any walk of life. It shouldn't be any harder for movie folk to be happy than any one else, and I don't believe it is."

"Patience," Miss Griffith continued, "implies the curbing of peevishness and a resolute determination not to quarrel with fate when the family finances will not permit purchase of that promised sport model or the finery your heart is set on."

"Devotion and sacrifice are perhaps the principal ingredients of the much mistaken element called love. Combine these into practical form and you have co-operation."

About Screen Romances

"The wife who co-operates with her husband, and vice versa, according to which one has a career to make or maintain, winning the bread of existence and the bonbons of luxury—that wife will always hold her husband, and that husband will never have occasion to doubt the fidelity of his wife."

"The bulk of picture people who have married are happy," Miss Griffith said. "Look at Douglas Fairbanks and Mary Pickford, the Bryant Washburns, and the Fred Niblos. They didn't have to be shoemakers to be eligible for marriage."

ital concord.

"Nor was it necessary for James Kirkwood and his bride, Lola Lee; for Wallace McDonald and Doris May, Harold Lloyd and Mildred Davis or the Pat O'Malleys to renounce the screen in order to make real homes for themselves."

Mrs. Wallace Reid, whose second production, "Broken Laws," is meeting with success in a number of cities, has started a personal appearance tour, opening at Kansas City; Mrs. Reid will speak from the stage in the larger cities where her film is shown and voice a plea for law observance.

especially as it affects children.

Nita Naldi has startled Hollywood with her svelte figure. When she left California some months ago she was growing a bit buxom, but now she is lithe again. There is a clause in Miss Naldi's contract with Rudolph Valentino providing that she must keep under 130 pounds, else she will not be able to do her most seductive vamping.

Miss Naldi explains that she got thin and keeps thin by eating spinach. She exercises regularly, but not violently. Cigarettes and cocktails are taboo.

Pat O'Malley has started work

on his characterization of "Pat O'Malley" in the Metro-Goldwyn-Mayer production of "Proud Flesh." Yes, his character name is the same as his own.

NO BOBS, SAYS QUEEN

LONDON, Jan. 27.—Queen Mary in her special courts for society folk this spring will have the word passed along that she does not like bobbed or shingled hair. It will be a blow to the debutantes, most of whom have bobbed their hair, but several of them already are planning to meet the situation by making wigs out of their shorn tresses which will give Queen Mary the impression that their hair never was bobbed.

SAFETY

ECONOMY AND COMFORT

for rainy season

WET slippery streets have no terrors for you when your car is equipped with Firestone Full-Size Balloon Gum-Dipped Cords. And you get more mileage from these wonderfully engineered balloons.

Every cord is Gum-Dipped by the exclusive Firestone process. Friction is eliminated. Strength and flexibility are increased. You obtain greater comfort. Your car is given added life and the upkeep greatly reduced.

Thirty-seven leading car manufacturers now standardize on Firestone Balloon Gum-Dipped Cords, and over two hundred thousand car owners have equipped with them.

The dealers listed below will make the changeover promptly and at lowest cost, with liberal allowance for your present equipment. Don't wait until Spring—get the full use of your car now.

CHARM SCHOOL TO BE GIVEN AT G. G. H. S.

Fifteen Students In Cast of
Drama to Be Given at
Garden Grove

BY MERLE RYAN.
GARDEN GROVE UNION HIGH SCHOOL, Jan. 27.—Miss Helen Knox, sophomore, will play the leading feminine role in "The Charm School," a play to be given at Garden Grove by high school students the evening of February 6. Photo by Gibson.

MISS HELEN KNOX

The situation that rises is teeming with clean, wholesome humor. In the end the young man gives up the school and promises to wait until the most precious of his pupils reaches a marriageable age.

The play will be given in the local grammar school auditorium, February 6, 8 o'clock.

The cast is as follows:
Austin Evans, Dolph Kelsey; David McKenzie, Harry Munn; George Boyd, John Allen Pitt; Jim Simpkins, Kenneth Harris; Tom Simpkins, Clyde Collins; Homer Johns, Louis Head; Elsie Benedict, Helen Knox; Miss Mays, Norma Larson; Miss Curtis, Inis Russell; Sally Boyd, Frances Bragg; Muriel Doughty, Dorinda Kerkworth; Ethel Spelvin, Lucille Kewenaw; Alice Mercer, Katherine Shackford; Lillian Stafford, Jewell Crowley; Madge Kent, Jeanette Stewart; Director, Miss Amy Redd.

Tickets may be purchased from students for thirty-five cents and reserved at Darling's Pharmacy for fifteen cents.

PAPER EXCHANGE STARTED AT GROVE

BY HUBERT W. HEAD.
GARDEN GROVE UNION HIGH SCHOOL, Jan. 27.—The exchange has started, and papers from Anaheim, Orange and Memorial Junior High school at San Diego have been received. The quick response to the invitation to exchange is appreciated.

Campus Buzz is now being mailed to Anaheim, Orange, Memorial Junior High school at San Diego, Fullerton and Tustin, Washington, D. C. and to Hartford, Wis.

The Doughboy, publication of the Memorial Junior High school at San Diego, contains some very interesting continued stories.

That the January 14 issue of the Reflector at Orange High was dedicated to the Orange football team, is worth commenting upon.

BY JAMES EVANS.
TUSTIN UNION HIGH SCHOOL, Jan. 27.—Four new features appeared in last week's issue of the Broadcaster consisting of a crossword puzzle (based on "Paradise Lost") by Lyle Kelly; a sports head drawn by Lon McIntire; a head for student opinion drawn by Opal Daugherty and a new editorial heading. These new features are the result of added interest in the school paper and an enriched treasury.

OFFICERS AT TUSTIN SCHOOL ARE NOMINATED

BY CARL WEISE.
TUSTIN UNION HIGH SCHOOL, Jan. 27.—Finishing the nomination of Student Body officers occupied the attention of seniors, juniors, sophomores and freshmen at class meetings, Tuesday Jan. 20, while the sophomores busied themselves also with the nomination of class officers.

Choosing "nominators to nominate the nominees" in student body meetings as one class president put it, took nearly as much time as selecting the nominees and in one case the contest waged long and waxed warm before one who would take the position could be found.

A significant sidelight was the bitter contest of some of the nominators due to the party just developed.

"Inasmuch as it created lively interest, this party has done much good," said Foster Prather, student body president.

Choosing "nominators to nominate the nominees" in student body meetings as one class president put it, took nearly as much time as selecting the nominees and in one case the contest waged long and waxed warm before one who would take the position could be found.

AMERICAN CORRESPONDENT IN ENGLAND ADMITS BRITISH REPORTERS MAKE MISTAKES

By MILTON BRONNER.
LONDON, Dec. 19.—American newspapermen who peruse European papers often laugh at the mistakes foreign newspaper men make about men and titles in the English speaking world in general and the United States in particular.

It's funny to see how the French papers, for instance, constantly misspell the names of well-known Americans and Englishmen.

It's comical to see a review of the English editor, Wickham Steed's "Through Thirty Years," in which that noteworthy book of reminiscences is labeled "Through Thirty Years."

And who is one to say of a British paper which discusses the career of Will Hays and says he was postmaster general under Wilson?

But all the mistakes are not on the European side of the pond. For instance, the other day there broke out the story of the black-mailing of the Indian potentate, Sir Hari Singh.

Father Was Dead
The lawyer for the plaintiffs in the case was Lord Halsbury. And one of the biggest papers in New York printed the first page a picture of a Lord Halsbury who had been dead for several years. He was the father of the man who was really acting in the case.

To an Englishman this New York paper seemed ridiculous. The fact is that a member of the royal family has been avoided by more careful attention to the morgue.

But by far the commonest mistake in American papers is in the use of the word "royalty." Time and again I have seen headlines stating that a member of the royalty does this or that, or says this or that in some American city.

When I read the article I see it is the Duchess of Westminster or the Duke of Marlborough or the wife of some marquis or viscount. Nobody is "royalty" except members of the ruling and royal house of a country which has a king or emperor.

Royalty includes the king, his queen and their children, and, by courtesy, the wives of the sons. Dukes, counts, viscounts, etc., are not "royalty." They are "nobility."

It's not important, but American papers might just as well be accurate as not. Then we are more in shape to laugh at the other fellow.

Police News
Because he is alleged to have found a pocketbook on the street, taken something over \$60 from it and tossed it away, James McDonald, 18, is being held in the Orange county jail on suspicion. He was arrested following a report made to the city police by Pete Hanson, who is alleged to have seen the boy find the money and who picked up the pocketbook and turned it over to the police.

Three Huntington Beach men, charged with grand larceny were brought to the Orange county jail last night pending a hearing. They are Claud Gossard, 24, Harvey Bryant, 27, and Wesley Crawford, 24.

Carl Kruger, 19, Fullerton youth, was brought to the Orange county jail last night where he is being held on a burglary charge. He was convicted there yesterday.

Henry Stovall, negro, of Fullerton was brought to the Orange county jail last night where he is being held on a burglary charge. He was arrested there yesterday.

Thomas McCarty, Fullerton man, began a thirty-day stay at the Orange county jail last night on a vagrancy charge. He was arrested and convicted in Fullerton.

James Holder, charged with vagrancy, was arrested by Officer Antoine West night and given a berth in the county jail. He is 69 years old.

T. J. McNally, 45, man without legs, who was arrested on January 25, charged with being drunk, is again in the county jail on the same charge. He was arrested last night, several hours after he had paid his fine on the first charge.

CROSS WORD PUZZLES MADE PART OF STUDY

Kentucky University Plan
Use For Continuous Intelligence Test

The cross-word puzzle has broken into the university curriculum. F. Paul Anderson, dean of Kentucky University's College of Engineering, has decided to use them as a continuous and automatic intelligence test.

Once a Week.
The cross-word puzzle class at the college of engineering is held for an hour once a week. During this period each student solves cross-word puzzles, just like he would tackle an engineering problem.

It has been surprising to see the interest awakened in the students by the competitive idea. Dean Anderson, "All are trying to outstrip their classmates in the number of puzzles solved."

As a means of enlarging the vocabulary and increasing one's power of observation so far as language is concerned, the cross-word puzzle in my opinion has no peer. It gives us knowledge of words that we have never seen and corrects our erroneous impressions as to what words mean.

Latin, French, German, Spanish, Italian, biology, zoology, sociology, entomology, physiology, botany, geography, law, engineering and all the other sciences and languages have representation in the puzzles.

30-DAY JAIL SPELL GIVEN L. A. SPEEDER

A bomb was thrown into the ranks of speeders and reckless drivers on Orange county roads late yesterday when M. K. Schaffer, 150 North Larchmont avenue, Los Angeles, a brother of Joe Schaffer of the Santa Ana office of the Automobile Club of Southern California, was given 30 days in the Orange county jail on a speeding and reckless driving charge.

Schaffer was caught on the San Diego highway on January 14, by Motorcycle Officer Walter Meyer, who arrested him on a charge of speeding 50 miles an hour and for reckless driving.

Another motorist was sent to jail to keep Schaffer company for a period of five days, and a third offender paid a \$50 fine as the result of two jury trials and two convictions in the same court yesterday.

The first trial was that of Louis Edison, 4505 First avenue, Los Angeles, who was charged with cutting in on another motorist on the Irvine boulevard. Motorcycle Officers Frank Stewart and Walter Meyer appeared against him. The trial lasted from 10 a. m. to 2 p. m.

While the jury was deliberating another jury took its place and heard the trial of El Escalona, 602 Lexington avenue, Hollywood, who was charged with speeding 45 miles per hour and cutting in. Captain Henry Warner of the motorcycle squad, was the complaining witness.

The court ordered Edison to pay the maximum fine, \$50. In Escalona's case the sentence was five days in jail. Attorney Charles de Flon, of the automobile club, who represented both defendants, gave oral notice of appeal in the case of Escalona.

5 Lose Lives In Minnesota Blaze

BARNUM, Minn., Jan. 27.—Five persons were burned to death here today when fire destroyed their home.

The victims:
Mrs. John Gerard, Ruth Gerard, 16, a daughter; Russell Gerard, 12, a son; Esther Walberg, 3, grandchild; Arthur Walberg, Jr., an infant; Mrs. Gertrude Kinsberg, 60, sister of Mrs. Gerard was rescued by two sons of Mrs. Walberg.

When the sweetness is gone from the flowerlet,
The bee flits away through the dawn,
But the man will stay with you forever,
If you just put the best cold cream on.

A man loves to kiss that smooth whiteness,
The taste of your powder to see,
So he samples each dainty white flowerlet,
Just so with our dear friend, the bee.

(A take-off on some girls who put on too much war paint.)
—By Mable Jones, Garden Grove Union High School.

JUNIOR REGISTER EDITORIALS

VALUE OF THRIFT

A statement to the effect that only fifteen per cent of the American people save systematically was given out by M. D. Clark of the First National Bank of Santa Ana. Save so you can pay your bills when they are due. The Credit Association recently stated that every man can not be rich in material wealth such as money, real estate, etc. But a richness that every one could have and that money could not buy is good credit. If you have the reputation of promptly paying all your bills when they come due, every business man will trust you. "Credit," the Credit Association stated "is worth more than money to any man."

Let's pay up all our bills and get the habit of paying our bills as they come due, but to do this, we must start to be systematic savers.

By EARL WALKER,
Garden Grove Union High School.

STUDENTS HAVE JOLLY TIME
GARDEN GROVE UNION HIGH SCHOOL, Jan. 27.—The B Square club held a very interesting meeting last Thursday evening at Mr. Ralph Chaffee's home. The meeting was in the form of a banquet featuring tamale pie, potato salad, and pies. There was just about twice as much to eat as the members could stuff. The rest of the evening was spent in playing Rook. Those present were: Mr. Ralph Chaffee, Leighton Phillips, Allen Wisner, Raymond Munn, Fred Wells, Cartwright Smith, and Warren Lamfman.

KEEPING APPOINTMENTS
How large a per cent of those who make appointment keep them?

The wife who promises to meet her husband after work, down town, is generally an hour late, if not two hours, and friend husband is very disgusted by the time she finally arrives. This may cause a family quarrel.

When a reporter makes an appointment with some person for an interview, he does not know when he arrives, whether it will be permitted or not.

If one makes it a rule to keep all appointments people will soon learn that he can be relied upon, and he will always be well spoken of in this way.

By Marian Marsh,
Garden Grove Union High School.

VALUE OF CORRECT EATING
HUBERT W. HEAD
One of the biggest problems in the home is that of getting breakfasts. Some folks like bacon and eggs, some pancakes or waffles or toast or mush and any number of other things. Many folks pile out of bed just in time to dress and rush to work, leaving their breakfast in the discard, while others do not desire to eat in the morning. It is usually the fat man that eats most at breakfast of all.

It is interesting while visiting, to observe the breakfasts which other families eat. Some concentrate on waffles while others have been to hear a lecturer who draws pay from a glue factory and they eat corn flakes by the peck. The doctors tell us not to eat heavy foods for breakfast, but many of us do. And an army of people drink coffee or some substitute in the morning. It would pay most of us to give stricter attention to the laws of health.

By Hubert W. Head, Garden Grove Union High School.

GOOD INVESTMENTS.
Are you a good investor? This question may make the average student squirm. It costs our parents considerable to send us to school. Besides the regular taxes, there are shoes and clothes to buy. Although a great number of students buy their own clothes, there is still quite a drain on the pocketbook.

However, our parents are not the only ones who spend money on us, for the school pays heavily to educate us. There are busses to buy and operate, shop equipment, athletic equipment, desks, chairs, paper, and numerous other things with which the school must be provided. It is only up to the students to do their level best in school activities in order that they may pay interest on the money that is invested in them.

By Hubert Head,
Garden Grove Union High School.

FROM PLANT TO FLOWER
The bee is attracted by honey. The man is attracted by maid. But never in all of my lifetime, Have I seen one that always stayed.

When the sweetness is gone from the flowerlet,
The bee flits away through the dawn,
But the man will stay with you forever,
If you just put the best cold cream on.

A man loves to kiss that smooth whiteness,
The taste of your powder to see,
So he samples each dainty white flowerlet,
Just so with our dear friend, the bee.

(A take-off on some girls who put on too much war paint.)
—By Mable Jones, Garden Grove Union High School.

BY HENRY BON DURANT
GARDEN GROVE UNION HIGH SCHOOL, Jan. 27.—The Grove A. and C. teams went to Huntington Beach and played their teams. They played a very good but losing game, the A score being 13 to 6 in favor of H. B. As Coach Sping says: "There was not an adding machine along so the score of the team is not known."

Knives, shears sharpened at Hawley's.

Crepe de Chine Selected for Commencement

BY ELIZABETH UTT.
TUSTIN UNION HIGH SCHOOL, Jan. 27.—On Wednesday, the twenty-first, the Senior girls and their mothers met to discuss the weighty subject of graduation dresses. There was a long and heated discussion before it was finally decided that white crepe de chine semi-tailored dresses would be the choice this year. Some of the girls were in favor of white linen as they thought it more suitable for the occasion and less expensive. Many of the Los Angeles schools are using linen this year. Most of the women present seemed to think that linen was not dressy enough for graduation, therefore the Senior girls will wear frocks of white crepe de chine this year.

Journalism
STAFF GIVES
'PEP' PROGRAM

BY JOHN WINTERBOURNE
TUSTIN UNION HIGH SCHOOL, Jan. 27.—"More pep than we've had this year," states an enthusiastic student.

"Say, but that tone took the cake, didn't it?" responds another.

So from all reports Friday, January 23 was a big day at T. U. H. S. All day a thrill of expectancy kept the students excited and jolly. "They say Jimmie is doing to dance in assembly today," some one chirps up.

"Aw go on, he wouldn't do it on a bet, he's too dignified," a bright and shining Frosh piped up.

Well he did it anyway and if laughter, shouting and applause count for anything it went off big.

To begin at the beginning of the story the Journalism class presented a "Pep" program Friday afternoon just before the first league game in the 1925 basketball season. The program began immediately at the close of the seventh period and lasted until the game began.

The first number was to represent to some degree the courtesy which is (not) shown in the cafeteria line "any noon." Then a representation of the Journalism class on any Monday. A mock basketball game was held, Orange vs. Tustin. Due to Franklin Holbrook (Harry Hardkorer) and Hugh Rannels (Earl Bashor), who have just returned from studying abroad, were greatly appreciated by all.

The closing number was a graceful Butterfly dance by Madame Mary Jean Silver of the Denishawn dancers, portrayed by Jimmie Evans. The assembly period was closed by a short speech from Coach Earl Murray and every one adjourned to the bleachers where a closely contested relay race between seniors, sophomores and juniors-freshmen, was held.

SEEK PICTURES
FOR SCHOOL ANNUAL

BY MARIAN MARSH
GARDEN GROVE UNION HIGH SCHOOL, Jan. 27.—How many good snapshots have been taken for the school annual?

There were several interesting pictures taken on the junior hike at Baldy, and if those having kodaks kept their eyes open perhaps they snapped a few extraordinary faculty poses.

A good addition to the collection will be a snap of the Boys' Fashion Revue.

Some very good snapshots are expected of the sophomore picnic at Trabuco canyon, and there are sure to be some very romantic and thrilling pictures when the frosh go to Laguna on their picnic.

PRIESTS RAISE CATS
PARIS, Jan. 26.—Siamese cats, now the fashion for wealthy women, are bred in the royal palace of Siam and are attended by Buddhist priests.

Lord Cecil of Chelwood, the new British plenipotentiary, states that Great Britain will never sign an agreement which she cannot live up to, and that the American proposals concerning the checking of opium smoking are impossible of fulfillment.

Japan thoroughly approves of the American proposals. Sugimura, head of the Japanese delegation, wrote a long letter to Fortier, the United States representative, voicing Japan's approval of the American program.

Heretofore Japan has opposed any efforts to suppress opium traffic in the East. It is therefore significant that this great Oriental country is joining hands with a Western nation in stamping out this evil.

SANTA ANA AND TUSTIN WIN IN NEWS CONTEST

Evangeline Cochems and
Elizabeth Utt Awarded
Honors

Evangeline Cochems of Santa Ana polytechnic high school is the winner of the first prize in the Junior Register's "Biggest News of the Week Contest." A similar prize of \$3 is also awarded to Miss Elizabeth Utt of Tustin union high school for her entry the first week. Second prize was awarded by the board of judges to Irma Young of Anaheim union high school. There were no more entries the first week and so no third prize can be given.

Miss Utt's entry was the only one made the first week which explains why no other prizes are awarded for the week.

The student writers are confined to 250 words and must write on some important topic of world news. The contest is to be held every week.

The prize winning efforts of Miss Cochems and Miss Young follow:

AN AMERICAN DRUG TREATY
BY EVANGELINE COCHEMS
Santa Ana Polytechnic High School

The international opium conference, under the auspices of the League of Nations is having difficulty in coming to terms as to a suitable method of disposing of the drug trade. Even the program and ideals of America have received little consideration. So failing to get any action taken by the conference on so vital a question, the United States has taken measures of her own to help suppress the drug evil on the American continent. In the form of a treaty with Canada.

The provisions of the treaty are for co-operation in fighting the drug traffic on this continent, and the yielding up of fugitives from justice wanted in either country for violations of the narcotics drug laws.

The drug evil is one of the most vital questions of the day. It is a great detriment to any nation as it retards progress and curbs the development of civilization, therefore no time should be lost in abolishing the narcotics drug.

Although the conference has not accomplished anything as yet, it has made a beginning, and meanwhile, the United States will have taken a big stride forward, and perhaps the Canadian-American treaty will act as an incentive and instigate the conference in furthering plans for the international abolition of narcotics.

Because the drug question is of such essential interest to the world as a whole, having the power to greatly injure civilization, anything relating to it might well be considered the "Biggest News of the Week."

THE ECLIPSE OF THE SUN
BY IRMA YOUNG
Anaheim Union High School

Scientists have discovered helium gas and nitrogen which may reveal a new secret or element for the benefit of humanity; computers will be able to furnish more accurate information concerning movements of the sun and moon; agriculturists will be able to obtain better results from their work because of new information compiled by scientists.

These discoveries obtained from the sun add to the value of things and make the material wealth of the world; they help to bring the great result of an improved race and deal with all humanity which is the most precious thing of all the world.

Thus this news story is not one concerning one locality of a nation but the localities of the world—so to my mind it is the ideal news story and the most important of the week.

JAPAN JOINS U. S.
IN OPIUM FIGHT

By ELIZABETH UTT
Tustin Union High School
The international opium conference is, I believe, the most important event, if it may be called such, of the week. There is a decided divergence of views existing between the United States and Great Britain concerning the Far Eastern phase of the opium problem.

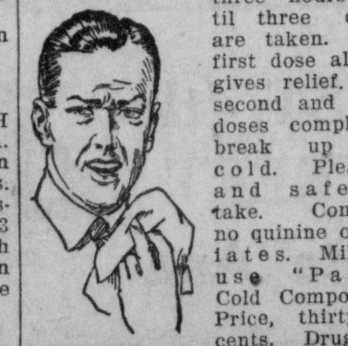

Lord Cecil of Chelwood, the new British plenipotentiary, states that Great Britain will never sign an agreement which she cannot live up to, and that the American proposals concerning the checking of opium smoking are impossible of fulfillment.

Japan thoroughly approves of the American proposals. Sugimura, head of the Japanese delegation, wrote a long letter to Fortier, the United States representative, voicing Japan's approval of the American program.

Heretofore Japan has opposed any efforts to suppress opium traffic in the East. It is therefore significant that this great Oriental country is joining hands with a Western nation in stamping out this evil.

When one considers that there are a million opium smokers in the United States and that the trade in opium and its derivatives is regarded as one of the great international curses, the importance of the issue is evident.

This opium conference is more important than any of the other happenings of the week, because it vitally concerns every nation in the world. If the representatives at the convention can come to an agreement on the stamping out of opium, it will be of great consequence to the whole world.

Break a Cold Right Up with
"Pape's Cold Compound"

S. A. BASKETTERS MEET SAN DIEGO NEXT

Those who were fortunate enough to see Paavo Nurmi, the peerless Finnish runner, winning four events at the Olympic games in Paris last summer, were convinced that he was the greatest runner that ever lived.

Veteran American coaches, whose careers covered a period in which all of the British and American distance runners made famous records, did not hesitate to say that he combined all of the best style points of past runners with some unusual form that was particularly his own.

The professional estimate of Nurmi's ability was aptly stated in the words of one of the American trainers who returned from one of Nurmi's workouts and said: "That Finn will win every race he starts in. There's not a runner in the world who has much more of a chance to beat him than I have and I can't run a mile."

Another American coach offered to wager that if Nurmi wanted to do it, he could beat any runner in the world at any distance from a half mile to ten miles.

These reports were cabled back to the United States by correspondents who were covering the Olympic games for American newspapers and perhaps such glowing praise of the Finnish paperhanger might have been regarded as slightly exaggerated. They were not. They were very conservative.

Wasn't Press-Agented American track fans learned that Nurmi hadn't been press-agented when he made his first appearance in America recently in the indoor meet of the Finnish-American Athletic Club in Madison Square Garden.

It will be recalled—it hardly can be forgotten—that Nurmi ran a mile and a 5,000-meter race against the best runners in the United States within a space of 90 minutes and that he made two new world's records officially and broke another one unofficially.

The astounding feature of the performance was not that he lowered two fine records because he has made a flock of other records that proved his speed. The amazing part of it was that he did so well on a wooden track, after only a few weeks' training on the boards.

If you think there is no difference between running on the comparative soft surface of a cinder path and upon the hard boards of a pine track, try it yourself. Remember what happened several years ago to Guillemot, the great French runner.

Guillemot was one of the greatest runners of his day. He is burnt out now after a short career on the track and has been forced to retire. Guillemot defeated Nurmi in one of the distance events at the Olympic games in Antwerp. It was the only defeat that Nurmi has experienced in six years.

The Frenchman came over in the winter of 1920, just as Nurmi did this year, and he was the feature entry in an indoor meet that opened the season. He had several weeks to train, but he couldn't get used to the boards. He pounded his feet sore and he was badly beaten in his first race.

Boards Hurt His Legs Nurmi said himself when he first started training that he didn't take well to indoor running, that the atmosphere was heavy and oppressive, and that the hard board track made his legs sore. He was on the point, it was understood, of declining to compete and wanted to return home several times, but he stuck to it with the persistence of his race and he learned what was to him a new and very hard game. Considering the handicap under which he labored and the rapidity

FIRST LEAGUE TOUR TO TAKE OUTFIT SOUTH

Kidman's Quintette Shows Great Improvement Since Beginning Season

By EDDIE WEST

Santa Ana high school's basketball team has a babel of preparation today with Coach Lyman Kidman preparing to lead his athletes out for their first voyage of the Coast Preparatory league season at the week-end. San Diego, long an able and well-liked opponent of the local school, will entertain Santa Ana in the South Saturday night.

San Diego has no Class C (110-pound) aggregation so Coach Ed Covington's undefeated charges will have to look around for a workout for Friday or Saturday.

The San Diego Class B (130-pound) basketballists will play here probably Friday afternoon. If the Poly varsity can show enough to weather the attack of the San Diego team away from home and on a strange court, it will have an even break in going through the remainder of their games successfully. Santa Ana hasn't won a league game for a couple of years so Kidman's tribe has everything to win and nothing to lose anyhow.

Show Improvement Poly got off to a poor start by dropping its first two league arguments and of course they are out of the running for the championship but the locals have registered a gradual improvement in form and they really are playing intelligent basketball. In holding Whittier and Long Beach even for three periods Santa Ana showed it had the making of a powerful quintette.

Coach Kidman had the difficult task of molding a five out of absolutely green material. There isn't a single player on the local squad who can be classified as regulars from last year's team. Not a single letterman reported at the beginning of the season and Kidman had the added disadvantage of having one of his best men, Seigal, being declared ineligible the day of the first league match.

The team is light and Kidman found it necessary to develop a passing game requiring speed and accuracy rather than a plunging, dribbling game in which weight and strength are the essentials. Familiarity with the style of play of each member of the five was necessary before anything like teamwork could be approximated which undoubtedly accounted for the first two Poly defeats. The affair at San Diego should demonstrate whether Poly had struck its stride.

Food for the Dopesters San Diego defeated Fullerton, 18 to 15, and then suffered defeat at the hands of Pasadena, 15 to 10. Santa Ana has played neither Fullerton nor Pasadena but the locals lost, 17 to 9, to Whittier which lost to Pasadena, 18 to 16. The fan who goes in for dope can figure it out that San Diego, on comparative scores, is two points better than Santa Ana.

While definite arrangements haven't been made yet it is probable that Kidman's troupe will leave here Friday afternoon and return after the game Saturday. A squad of eight or nine players probably will make the jaunt to the border city.

Coast Preparatory League

	W.	L.	Pct.
Long Beach	2	0	100.0
Pasadena	2	0	100.0
Whittier	1	1	.500
San Diego	1	1	.500
Santa Ana	2	2	.500
Fullerton	0	2	.000

S. A. GOLFER DEFEAT SQUAD OF HACIENDA

League Standing
Hacienda 40½
Santa Ana 33
Oakmont 24½
Palos Verdes 17

Yesterday's Results
Santa Ana 11½, Hacienda 3½
Oakmont 9, Palos Verdes 6.

The Santa Ana Country club's crack 10-man golf team gave the Hacienda Country club aggregation its first defeat of the season yesterday when they clashed in inter-club league match play over the new local links. The 11½-to-3½ victory recorded by Captain H. R. Van Dien's shooters hoisted them to within easy striking distance of the La Habra team which retained first place despite its decisive defeat. The local victory was particularly pleasing in that Hacienda won, 12 to 2, in the match over the Hacienda course several weeks ago.

Much will depend on next Wednesday's play when Santa Ana meets Palos Verdes and Hacienda takes on Oakmont.

The results yesterday follow: John W. Tubbs and Robert E. Reid (Santa Ana) defeated E. R. Canterbury and H. E. Tebbetts (Hacienda), 3 to 0.

W. G. Sydney Harris and Mark B. Lacy (Santa Ana) defeated H. Roy Durbin and W. Cox (Hacienda), 3 to 0.

George R. Shattuck and J. Fred Parsons (Santa Ana) won from D. B. Kennedy and H. Anderson (Hacienda), 3 to 0.

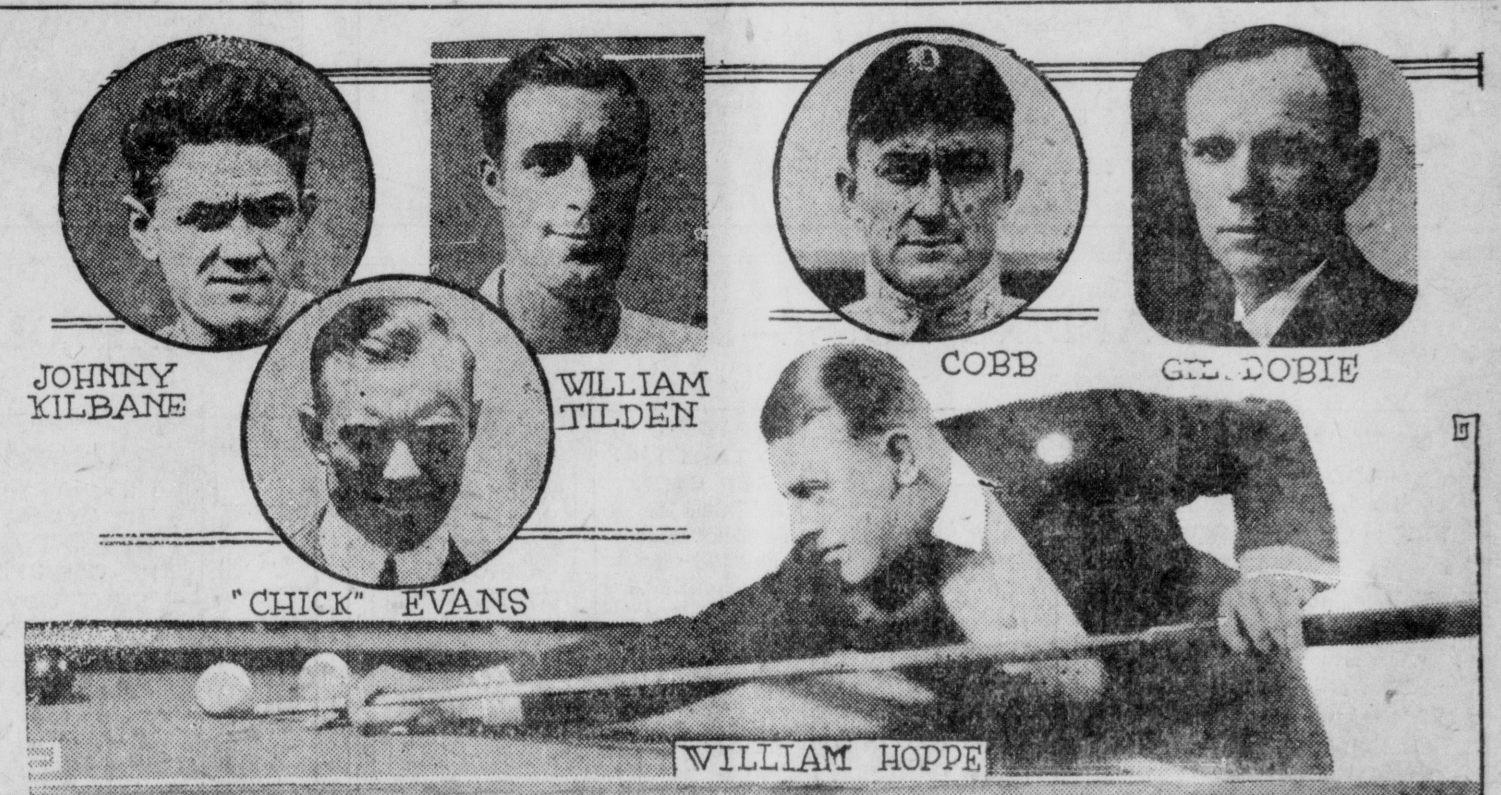

Jim Livesey, Jr. and H. B. Van Dien (Santa Ana), tied with C. F. Benton and O. Mendhall (Hacienda), 1½ to 1½.

G. W. Finch and A. R. McGregor (Hacienda) won from C. D. Holmes and C. H. Way (Santa Ana), 2 to 1.

LOS ANGELES, Jan. 27.—A few chances have been made in the University of Southern California basketball schedule. The Trojans have substituted the Multnomah club of Portland for the Idaho contest, on Feb. 27. A game against the University of Washington is scheduled for the day before the Multnomah tilt, while on the 28th U. S. C. goes against the Oregon Aggies. On March 2, the Trojans close their northern invasion against Willamette at Salem.

TROJAN HOOP SKED CHANGES ANNOUNCED

SIX SPORT CHAMPS EXTRAORDINARY—LONG TIME MONARCHS

PICK GRIZZLY COURT OUTFIT TO WIN TITLE

LOS ANGELES, Jan. 27.—With the Southern California conference basketball season more than three weeks old, dopesters are busy trying to pick the winner, the favorite at the present time being the University of California, Southern Branch, with Occidental a close second.

If the Grizzlies can win their two games against Pomona this week end, they will have easy going until they meet Oxy Feb. 20 and 21. Pomona has a powerful squad, and although they were beaten by Oxy last week end they threw a scare into the Tigers by leading 15 to 5 at the end of the half.

However, if the Grizzlies roar past Pomona and other opponents between now and Feb. 20, and Occidental does likewise, the conference title will be at stake on that date.

Whittier, at present in third place, has an outside chance for the title, as it has lost only one game. That was the decisive trimming from the Branch last week. Redlands, Pomona, and California School of Technology have all lost two games, Redlands being the only one of the trio with a game in the win column, and that from a forfeit.

SPORTLAFFS

Major League Scouts Adopt Different Methods in Looking Over Highly Touted Rookies

By BILLY EVANS

It's one thing to be a champion. But to hold onto the laurels is something else again. Heading the list of so-called sportive immortals is Willie Hoppe, exponent de luxe of the billiard cue and the green table. Hoppe, once termed the "boy wonder," has been outlooking opponents at the 18.2 balking game for close to two decades.

Cobb's stellar batting march knows no parallel in all baseball history. Moreover, it isn't likely to be approached, either. For 11 straight years Johnny Kilbane had the featherweight chevrons packed away in his kit. And then—a French chap named Eugene Criegi, came along and Kilbane's remarkable reign was over. But Johnny had perched atop the pugilistic throne longer than any other ringster before or since.

There is an old adage in golf to the effect that a champion seldom repeats. But not to Chick Evans, Chicago wizard.

For Evans, besides perhaps winning as many big time golfing tournaments as any pastmaster in history, boasts a record of having grabbed the western amateur event four times running. He was turned back on his fifth attempt last summer.

To Gil Dobie, now coaching at Cornell, goes the honor of chalking up the longest winning streak in football. Dobie, while tutoring teams at the University of Washington years ago, went through nine consecutive seasons without tasting defeat. Spot that record if you can.

And then there is Bill Tilden, the tennis monarch. Tilden has played "hokey" with the rest of the field in the national singles event for the past five seasons. He looks good enough to continue indefinitely, though it is rumored that the champion plans to retire this year.

SPORTLAFFS

Major League Scouts Adopt Different Methods in Looking Over Highly Touted Rookies

By BILLY EVANS

MAJOR league scouts employ divers ways and means to determine the possibilities of some highly touted minor league recruits. Of course, a majority of the sleuths watch the player from the grandstand and performance on the field. Others try for closer contact.

Harry Howell, famous spitball pitcher of other days, later a baseball scout, donned a uniform and pitched against the player in batting practice, if ability to hit was the doubtful issue.

Charley Farrell, famous as a catcher 30 years back, now scouting for the Boston Braves, always formed his opinion of a rookie pitcher by having the pitcher warm up with him for several days.

However, it strikes me that Joe Cantillon, while manager of the Washington club, pulled the most unique stunt I ever heard of relative to determining the value of a bush league phenom. Of course, there was a big test in Joe's reasoning.

Ollie Pickering, an outfielder of the Washington club, was out of the game with a bad leg. Cantillon had received a tip about a south-paw pitcher on a team about 100 miles distant from Washington.

Rather peeved that Pickering was out of the game, because his batting was needed, Cantillon, after delegating him to look over the player, called him back for final instructions.

It so happens that Pickering was a left handed hitter. He could murder right handed pitching but the trouble-makers make him plenty of trouble.

"You had better take your bat along with you," said Cantillon to Pickering.

"Why the bat?" asked the player. "Just this. I want you to bat against the pitcher I am having you look over. If you make so much as even a foul in your first dozen tries, leave him there."

And with that, Cantillon walked away.

NEW TEST FOR FINN RUNNING STAR TONIGHT

Paavo Nurmi to Meet Ray, Connolly and Larivee in Three-Fourths Mile

By HENRY L. FARRELL

(United Press Staff Correspondent)
NEW YORK, Jan. 27.—Used up a bit by the strain of the terrific program that he is attempting, Paavo Nurmi, world's fastest distance runner, will get the most severe test of the season tonight at the Millrose games in Madison Square Garden.

Nurmi will attempt his thirteenth world's record in a three-quarter mile race as if he wins he is almost certain to establish a new mark. In the field against him will be Jole Ray, his foremost American rival, and the record holder for the distance, Lloyd Hann, Leon Larivee and Jimmy Connolly.

The distance is admittedly a little short for Nurmi while it was made for the American stars who will oppose him. One week ago it seemed to be a sure bet that Nurmi had command of every race in which he had been entered, but he looked worn and slightly stale when he lost a handicap race last Saturday to Gunnar Nilson. Nurmi had the speed to make a new world's record but he made a mistake in his pace and failed to make up the 100 yard handicap that had been given the winner.

When he makes a miscalculation in pace he is off and a mistake tonight will be fatal. He might have been under wraps in his last race, but he does not like to lose even if a defeat in a handicap race amounts to very little.

Substitute Hart For Bob Barrett

LOS ANGELES, Jan. 27.—Bobby Barrett, red-headed Philadelphia lightweight, has been forced out of his bout with Dode Berout of Seattle by an attack of influenza and Alex Hart, a mate in Jimmy Daugherty's stable, will take his place at Doyle's coliseum tonight.

THAT MAKES THREE Edith Slaughter was the third Michigan guard to gain a place on Camp's mythical All-American eleven. The others were Benbrook and Altmendinger.

der right handed pitching but the trouble-makers make him plenty of trouble.

"You had better take your bat along with you," said Cantillon to Pickering.

"Why the bat?" asked the player. "Just this. I want you to bat against the pitcher I am having you look over. If you make so much as even a foul in your first dozen tries, leave him there."

And with that, Cantillon walked away.

won the first Junior League series at the Broadway academy last night. The scores:

Your Wife and Kiddies
WANT A HOME
THEY HAVE A RIGHT
TO DEMAND IT
You can afford it on our easy terms. We have just completed two that are open for your inspection.

5 room white stucco, a beauty, large living room and dining room, gas, modern, hardwood floors, built-in features, 2 lovely bedrooms, bath between hallways from living room to bedrooms, nice kitchen, back porch with stationary tub, garage, cement driveway, paved street with parking. A dandy home for only \$4600, about \$200 cash and easy monthly payments.

A modern 5 room bungalow, just being completed. Living and dining rooms, 2 bedrooms, hardwood floors, built-in features, garage, cement driveway, paved street with parking. A dandy home for only \$4600, about \$200 cash and easy monthly payments.

These homes are of the best of construction and are located in our own tract with paved streets, sidewalks, gas, water, electricity and bus service.

If you have not the amount of cash required here, get in touch with us anyway. We will rent for you or let you have on any proposition that you make.

If for some reason these homes do not suit you, we will build one that will and sell it to you on terms you can meet.

We have a real service to render home-seekers.

TAKE ADVANTAGE OF IT!

EVENING SALUTATION

The grass is softer to my tread
For rest it yields unnumbered feet;
Sweeter to me the wild rose red,
Because she makes the whole world sweet.
—Lucy Larcom.

AVOID VIOLENCE

A word of caution directed toward Anaheim at this time by a sister city may have no effect, but nevertheless we cannot refrain from sending the word.

Anaheim, it is the hope of Santa Ana that all these rumors of threatened bloodshed are figments of excited brains. It is the hope of Santa Ana that you will approach and go through your municipal recall election without shedding of blood.

It is the duty of every resident of Anaheim to see to it that any movement among his own partisans that tends to bringing about violence is tempered with reason and caution.

We acknowledge that there is a real civic issue before you. But that issue cannot be decided by violence. In fact, violence will damage the cause of the faction responsible for it.

It is a time for cool thinking; it is a time for cool action. The leader who advises violence should be given deaf ears.

AMERICAN STYLES

"A school of distinctive American design in fabric and costume" is being originated in New York. Leading American artists and illustrators are said to be enthusiastic about the movement. They believe that the American woman is better dressed than the Paris woman, and want to let the world know it. Los Angeles, too, as was pointed out by Peggy Hamilton in her recent address before the Merchants and Manufacturers association of Santa Ana.

The ancient Greeks have always been looked upon as models of artistic taste, in the matter of clothing as in architecture, literature and other things. Howard Chandler Christy says:

"The American mode in woman's dress of today is the truest approximation to that of the ancient Greeks that exists anywhere. The distinctive note of the American silhouette is its simplicity of line in following the natural contour of the form and its truth in its avoidance of exaggeration and the bizarre."

Feminine clothing is unquestionably a worthy form of art, regardless of the merits of the wearers. And the chances are that this artist's judgment is correct. The present-day American girl's dress is not queer at all, though it may seem so to judgments formed by the queerest of past styles. It is simple, graceful and natural in line and pleasing in color. These truths should be self-evident on Main street as well as Fifth avenue. Would that men's clothing were as praise-worthy!

NOTHING TO DO

Unusually pathetic and instructive is the suicide of a retired street car conductor. He started, as a young man, saving and investing wisely. At the age of 48, with \$20,000 in the bank and two good income-paying properties, he retired to enjoy life.

But life palled on him. After a while he got a job as a street inspector, just to keep his mind busy. Then the old desire for retirement came upon him, and he quit working again. Once more, from sheer discontent, he took a job as a shipping clerk. But he had no real incentive to hold it, because he didn't need his pay, so he let himself out.

The other day his wife went down town, leaving the man playing solitaire in their flat. When she returned he was lying dead, with a new revolver beside him. There were no family troubles. He took his own life, his wife said, "just because he had nothing to do."

Life is a great thing—if there is an incentive for living. With most people, the quest of a fortune is better than its possession, though nobody will believe that while the quest is on. It is foolish, no doubt, to keep on working like a draft horse after all need of work is passed. But he is a rash man who retires, with strength and faculties unimpaired, unless he is sure that he has interests enough to occupy his mind. To make idleness tolerable, there must be mental capital as well as dollars—at least, an engrossing hobby.

THE PUBLIC DEBT

Since budgeting has become the fashion, most people know more about how much they owe than they used to. But what citizen thinks to add his share of the public debt, which is saddled upon him less directly but no less surely than any personal or business debt?

Census Bureau figures show that the public debt of the American people two years ago was about \$31,000,000,000. It is probably more than that now. The total given means over \$280 apiece for every man, woman and child in the United States. Call it an even \$300 today.

This may not mean much to the single man, earning a good income and having nobody but himself to take care of. It means a great deal to the average head of a family, carrying a public debt burden of about \$1,500 in addition to all his other obligations. That \$1,500 draws interest, and he provides the interest money, whether he realizes it or not. As the principal is retired, he advances the money to retire it. He pays in taxes of many kinds, direct and indirect. He pays in the price of everything he buys, whether commodities or human service; for debt spreads itself through the whole economic life of a nation, taking toll in practically every payment that one person makes to another.

HEALTH EXAMINATIONS

Sarnia, Ont., has just been observing its annual Public Health week. The special feature of the program, more important than conferences of medical workers and public lectures on health subjects, has been the giving of physical examinations by physician and dentists.

Hundreds of citizens from the city and the surrounding country districts registered for physical examinations. Eye, ear, nose and throat, and chest specialists, from Sarnia and other Canadian cities, have been working overtime to take care of the people appearing at the clinics. Particularly hopeful is the fact that great numbers of these patients have been children. That means that a good many minor defects, which might become serious ailments if not

cared for in childhood, will be discovered and the proper treatment recommended.

Persons interested in public health work in any way have long been urging regular physical examinations for everybody. An annual examination need not always be detailed. It should be sufficiently thorough, however, to disclose the general physical condition. If that is good, then it is likely that there are no hidden diseases at work. If the general condition is not good, then the examination should be made more detailed until the disturbing cause is found. Many ills formerly regarded as inevitable and incurable can be entirely prevented or completely cured if a regular, annual physical examination is had.

A doctor from the Mayo hospital has discovered the bloodless germ. Another doctor from Minnesota named Volstead beat him to the discovery by about six years.—Wichita Beacon.

There is some dispute as to whether the road sings should read "Go Slow" or "Go Slowly". But the speeders are usually going too fast to notice errors in grammar.—Pocatello Tribune.

A theorist is one who is forever blowing bubbles. A practicalist is one who gets out and bursts a few.

Nashville Banner.

Many winter tourists are coming to California from the East, despite the systematic misrepresentation that have been spread through that section about this state. There is too much intelligence for these aspersions to gain and hold ground.

Kyle Palmer, writing in the Los Angeles Times, says that the present Legislature has broken all records for inertia and purposelessness. Probably so, on the outside, looking in. There are times when a session of the Legislature seems unnecessary, and this is one of the times. And when the Legislature must convene, under such circumstances, it naturally follows that the session seems without purpose. If the people could realize that the members of the Legislature are just good citizens, anxious generally speaking to do the best they can, it would do a great deal to keep one's mind normal as to the activities of the law-making body—or the lack of them.—Redlands Facts.

Mexican Border Farce

The legal fiction which permits the confusion of national and personal rights should be given diplomatic clarity.

On the American line of the Mexican border the United States has certain rights. On the Mexican side of the American line, Mexico has certain rights. Each has those rights because it is a nation, not because it has property ownership in the lands on either side of the line.

Yet, each nation does protect this ownership of property on each side of the line.

On the Mexican side of the international line, in the Imperial valley, there are many thousands of acres of land owned, it is notorious, not by Mexicans, but by Americans. These Americans are using the cloak of a government to support its acquisition of privileges for their lands that are adverse to the interests of the state of California, of Arizona and of other American commonwealths.

If these lands in Mexico were owned by Mexicans, and these rights were threatened or questioned by an American administration, it would be highly justifiable for Mexico as a government to support its national, and for the United States to concede to the nations of a foreign power.

But it is highly absurd for the United States, against its own interests, against the interests of its competent states, to permit the cloak of a foreign government to be used to protect artificial rights of Americans as against the collective interests of Americans.

We have too much of this border running. We have Americans using Mexican protection to harbor gambling and other vice on the Mexican side that would not be tolerated on the American side.

We have Americans under Mexican protection building up a colonial system with Asiatic labor that would not be tolerated within American territory.

And we have American capital picking a melon for investment in the Mexican market and using the cloak of an enfeebled Mexican regime to extort from a complaisant American administration what the Mexican government itself is not concerned in.

It is a farce, Harry Chandler, publisher of the Los Angeles Times and a citizen of the United States, functions as a client of Mexico, appearing at Washington as an opponent of American policies in the handling of the Colorado river problems.

Abolish Electoral College

The quadrennial farce has been performed. The electoral college has functioned once more. Presidential electors met in the respective states, canvassed the ballots cast last November, and certified to the result. This will be presented with more or less solemnity, to a joint session of the Senate and House on February 18.

This has become farcical. The Nation has outgrown the electoral college. It is archaic. It is cumbersome and so out of date and useless as to be near ludicrous. It is to be hoped that a constitutional amendment may be submitted soon, providing for abolishment of the electoral college and for choosing the President by direct vote. This would be in keeping with modern policies and conditions now prevalent in this country.

That Body of Yours

By James W. Barton, M. D.

MUSCLE PAIN
You have a burning or perhaps a "cutting" pain in the side of the chest. Every time you breathe the pain becomes worse. Your natural conclusion is that you must have pleurisy, and you become alarmed. You get home and to bed, and your physician makes an examination for you. After taking your temperature and pulse, and listening to your chest, he reassures you by telling you that it is only the muscles of the chest that are on the outside of the ribs, that are at fault.

You perhaps get a pain between the shoulder blades, and it is likewise to be found in the muscles, or, even, on the outside of your body. Sometimes a pain directly over the heart has caused you some anxiety, until your doctor told you that the pain was really in the muscles of the chest. A pain in the small of the back has immediately brought visions of severe kidney trouble, until again reassured that it was simply the muscles in that region that were affected, and not the kidneys themselves.

Now, what about this pain? For many years it was called muscular rheumatism, but lately it has been called myalgia, meaning simply muscle pain. And the cause? No definite cause has been found as yet, but there are certain things that stand out as possible causes. Nearly every time there is a history of exposure to cold, dampness, or a draft. But two people may be exposed to the same cause, both wearing same amount of clothing and so forth, yet one is attacked by this pain, and the other escapes entirely.

This is because in the one affected there must be some infection lying quietly in the tissues, due to constipation, bad teeth or tonsils, or other condition. The dampness or draft cools or chills the blood, and it loses its resistive power.

And the treatment? Heat is the big factor at first, with massage later. Drugs should not be used, except perhaps aspirin in full doses for a couple of days. Sweating is of course indicated, and the heat and aspirin accomplish this.

The Teething Period

The Register Zoo

YOU'VE surely seen the Pewee,
For every town has had
A visit from this little bird
Whose song is very sad.
He builds his nest of grasses
On the hanging limbs of trees.
He lives on insects which he snaps
While flying through the breeze.

Education in Safety

San Bernardino Sun

School authorities in Los Angeles claim a reduction of 21 per cent in the accidents to school children through automobiles from the expectation at the beginning of the year. An actual decrease in fatalities, while there is a large increase in exposures, means much for the effect of safety education in the schools. The course includes in addition to instruction, competition in poster drawing, verse composition and other things that impress caution and self-control upon the minds of the children.

While the effect of this education is felt immediately in a reduction of accidents to children, its effect will be carried forward in still greater measure as these children become drivers of machines in future years. It will mean much to the safety of the public to have auto wheels in the hands of those who in youth were taught the principles of caution and safety until they become instinctive. There will be less careless and reckless driving. Even the road hogs will be fewer in number, as drivers who have been schooled in the observance of regulations and in consideration of the other fellow operate automobiles.

Such education of the individual in regard for safety measures is far superior in its effect upon careless or reckless driving than the arrest and punishment of but a small fraction of such drivers. Punishment in itself is a poor educator, yet that has been the chief reliance of society in the matter of crime. We may expect that children taught in the schools to obey regulations and exercise caution will when they grow to adolescence and adult age be less likely to get into the criminal courts than those who grow up in an atmosphere of self-indulgence and disregard for control. It may be a long road to follow to the goal of safety and good citizenship, and in the meantime the courts will have to do what they can for protection of the public, but the educational route is the only one which actually leads to the goal.

Tom Sims Says

Politeness, these days, consists of offering a lady your seat when you get off the street car.

Some of the dealers should mend their weights. Trouble with saying it with flowers is you must keep repeating. The diplomatic thing to say when she is dieting is, "Are you trying to reduce your weight or gain weight?"

Uneasy lies the head that wears a frown. Practice makes perfect, but who wants to be a perfect liar? As a rule, as you look so are you looked upon.

People who talk in their sleep should tell the truth while awake. After a man gets down to brass tacks he finds they are gold. The man who is going to do things is generally too busy to talk much about what he has already done.

Time to Smile

IT WAS A SURPRISE
Savior—I hope my proposal for the hand of your daughter hasn't taken you by surprise, sir.

Father—Well, to tell the truth, it has. You've been so jolly slow in getting around to it that I thought it wasn't coming at all.—London Answers.

INFORMATION
Philosopher—I contend that a married man is always better informed than a single man.

Cynic—Naturally. What he doesn't know, his wife tells him.—London Answers.

Little Benny's Note Book

by Lee Pope

Ma started to imbrolder imbroldier last nite after supper, saying, Well Im glad tonite izent going to be last nite, I woudnt put in another such sleepless nite as I put in last nite for all the kings horses and all the kings men. Of all the things that can happen to you in this life an attack of nooralgia is the worst, she sed.

You wimmin certenly take your troubles seriously, pop sed. It had bin me, now, or in fact any man, the incident would of bin forgotten long ago, he sed.

If you ever had an attack of nooralgia you could never sit back there and call it an incident, ma sed.

Ive had worse than nooralgia, and the only sensible thing to do is grit your teeth and make up your mind to simply ignore it, and 9 times out of 10 you'll fall asleep and the hole thing will be over, pop sed.

It sounds lovely to heer you tell it, you men are wonderfull creatures, I dont see how you can live in the same world with us wimmin, ma sed.

I marvel at it myself sometimes, pop sed. Wich jest then he put his hand over one eye saying, Owteh yee gods, can you beat that, somethings in my eye, wy does a thing like that always haft to happen to me, especihly?

And he started to rub his eye and twist it all around saying, Confound it to blazes, blast it to smithereens.

Wy dont you ignore it? ma sed, and pop sed, I woudnt mind it if it happened in a railroad train ware you expect things like this, but rite heer in the privacy of my own home, thats wat I object to, hang the luck.

Then wy dont you imagine your riding in a train and jest grit your teeth and go to sleep, hee hee? ma sed, and pop sed, Your sweet wounly simpaty overwelds me. Im going to try to wash it out and if I cant get it out in 5 minits my'll haft to call up the docter, this is serious.

And he started to go to the bathroom still holding his eye, ma saying, 9 times out of 10 it will be all rite in a minit.

Wich it was.

IN THE LONG AGO

14 Years Ago Today
From the Register Files

JANUARY 27, 1911.

Articles of incorporation for a new laundry in Santa Ana were filed at the office of the county clerk. The concern is capitalized at \$25,000 of which \$9,000 is subscribed.

The city council last night voted the resurfacing and paving of West Fourth street. An ordinance was ordered drafted prohibiting any automobile from parking within 100 feet of the corner of Fourth and Main streets.

The Santa Ana high school baseball team looks exceptionally strong. Among the stars are Barker, Witt, Warren, "Shorty" Smith and Ted Witt.

George Angie and Ed Vegely organized the Pacific Auditing and Service company with offices in the Rowley building at Fourth and Main streets.

Greelings

Hal Cochran's
DAILY POEM

I SEZ to a friend of mine, sez I, "And how do you feel today?" He looked me o'er with a half-closed eye and his answer ran this way: "I'm feelin' tip as top can be, and I'm flowin' o'er with pep. The world cant get away from me, 'cause I always keep in step. I don't

know what it is to frown, and I have no time to fret. I do the smile gait right up brown. It's the safest kind of bet.

"I meet a man with an out-stretched hand and I greet him 'Hi, there, parry?' I try to make folks understand that I'm always hale and hearty. A man's in need of friends, ya know, and I'm always glad to take 'em. This cheerful play is far from slow. It's the proper way to make 'em."

And then my friend just shook my mitt, in the way that he'd explained. And when he'd finally loosed of it, why, the blamed thing really pained. But he also shook my inner thought, and a life sht came anew. His cheerful spirit quickly caught—so I'm feeling cheerful too. (Copyright, 1925, NEA Service, Inc.)

Your Income Tax

A series of thirty articles, based on changes in tax legislation in the Revenue Act of 1924, has been prepared by the Bureau of Internal Revenue. These articles are appearing under the above heading, in the order they are issued.

No. 14

The revenue act of 1924 provides that in computing net income there may be deducted from gross income "a reasonable allowance for the exhaustion, wear, and tear of property used in trade or business, including a reasonable allowance for obsolescence." For all property used in trade or business, deduction is confined to property actually used in a business, trade, profession, or vocation. In general it applies to capital assets, the cost of which can not be deducted as an expense. For example, a lawyer or physician is not permitted to write off as a current expense the cost of his professional library, but may deduct an allowance for its depreciation.

Deductions are not allowed for depreciation of taxpayer's home, the furnishings therein, his personal effects or clothing. Costumes used exclusively in the theatrical business, however, may be the subject of a depreciation allowance.

Depreciation in the value of land, whether improved or unimproved, can not be claimed.

No amount may be included for depreciation representing reduction in value of property due to changes in environment—for example, loss in rental due to a change in the social or business condition of the neighborhood.

Neither is any change in the amount of rate of depreciation allowable on account of an increase or decrease in the market value of property. Fluctuation in the value of depreciable property has no bearing upon the rate or amount allowable for depreciation.

Intangibles, the use of which in trade or business is definitely limited in duration may be the subject of a depreciation allowance. Examples are patents, copyrights, licenses, and franchises.

No. 15

The basis for computing the amount deductible on account of

depreciation and obsolescence upon property acquired after February 28, 1913, is, in general, the cost of such property. In the case of property acquired before March 1, 1913, the basis is the cost of the property, or its fair market value as of that date, whichever is greater. To compute the amount of depreciation which may be claimed, the taxpayer should determine the probable life of the property, then divide by the number of years it will be useful in the business in which employed. The result thus obtained will represent the amount which may be claimed as a deduction. For example, a frame building, the probable lifetime of which is 25 years, cost \$10,000. Divide \$10,000 by 25 and claim \$400 each year as a deduction.

If a taxpayer claims the full amount of depreciation he can not claim as a deduction the cost of repairs to the property during the same year. "Repairs" in this connection means repairs in the nature of replacements to the extent that they arrest, deterioration, such as a new flooring or roof.

When, in the course of years, the owners of the property has claimed its full cost, no further claim for depreciation will be allowed.

Deductions for depreciation must be made as a separate item of the taxpayers' return, and must be explained by showing separately each class of property, its cost, estimated life, depreciation charged off for the taxable year and total depreciation charged off for all taxable years.
